## GIRLS DIE IN FLAMES.

### Powder Plant Burns In Chehalis.

### Seven Young Women Em- ployees Meet Death and Another Badly Burned.

### Dozen Men Escape Unscathed in Horrible Accident Sad- dening Town.

### Relatives of Victims Unable to Identify Bodies So Terri- bly Scorched.

(BY DIRECT WIRE TO THE TIMES.)  
CHEHALIS (Wash.) Nov. 1.—[Ex-  
clusive Dispatch.] Fire which de-  
stroyed the powder factory of the  
Imperial Powder Company at Chehalis  
last night today caused seven young  
women to lose their lives and an  
eighth will die tonight at the hospi-  
tal.

Only two girls escaped, though a  
dozen men were unhurt.

THE DEAD.

VERA MULFORD.

TILLIE RASHBACH.

SADIE WESTFALL.

EVA GILMORE.

BERNIE HAGLE.

ETHEL THARP.

MRS. ETHEL HENRY.

Miss Bernie Crown was so severely  
burned that she will die.

The cause of the fire is a mystery.

One report is that a pot of paraffine  
was permitted to boil over by a care-  
less workman in the mixing room,  
that part of it ran into some powder,  
a flash followed and soon the whole  
structure was ablaze.

The girls were hurled down to-

gether and owing to the rapid spread  
of the flames could not escape from  
behind a counter where they were  
working.

Some of the men were blown many  
feet and several narrow escapes are  
reported. There was no explosion,  
the Imperial powder being non-explosive  
unless confined. A flash did the busi-  
ness, starting the fatal fire and result-  
ing in the further destruction of four  
of the company's buildings with  
equipment and many tons of manu-  
factured powder, amounting to a financial  
loss of \$20,000 or more.

SEVEN IN MORGUE.

Tonight seven bodies are at the  
Chehalis morgue, but relatives are  
able to identify few. One girl's father  
picked her out by a ring she had worn.

All the theaters in town closed for  
the night and general gloom prevails  
over the community.

DOZEN MEN ESCAPE.

There were a dozen men working  
in and about the factory at the time  
the accident occurred and all escaped  
without injury.

Just before the fire started Victor  
L. Bedier, superintendent of the plant,  
had called Beattie Cochran from her  
work into another part of the plant.

To this fact she owes her life, Eva  
Zavalesek, the only other girl employed  
who escaped, was in the building  
when the flash came and was thrown  
out. She knows not how.

RUNS FAR IN FRIGHT.

The Cochran girl ran toward the  
company's railroad track, while the  
Zavalesek girl rushed madly up the  
Coal Creek Valley, where it was  
necessary to overtake her with an au-  
tomobile later, so badly was she  
frightened. Her hair was badly  
singled and she counts her escape  
most miraculous.

The women were working behind  
a bench next to a wall when the fire  
started, apparently from the position  
in which the bodies were found. They  
had been blown into a bunched position,  
or had huddled together in a  
frantic effort to escape.

This work bench was in their way,  
however, even if there had been any  
chance of egress, so rapidly did the  
flames burst in every direction.

Two of the buildings were saved.

TWO DIE IN MINE.

EUREKA (Utah) Nov. 1.—(By A.  
P. Night Wire.) Caught by a cave-  
in, which occurred today in the Chief  
Consolidated mine, Walter Ferguson  
and William Allen were crushed to  
death. John Johnson sustained serious  
injuries.

Flash and Muzzle.

## PEASING THE REBELS

### Throne Makes Yuan Premier.

### Good Places for the Revolu- tionary Leaders Will Also Soon Be Found.

### Panicky Feeling of the In- habitants of Peking Dis- pelled by Edict.

### Opposing Armies in Sight of Each Other But Not Likely to Fight.

(BY A. P. NIGHT WIRE TO THE TIMES.)  
PEKING, Nov. 1.—The appoint-  
ment today of Yuan Shih Kai as  
Premier of China will be followed  
by a cessation of hostilities on the  
part of the imperialists and the open-  
ing of negotiations with Gen. Li Yuen  
Heng, leader of the revolutionists at  
Hankow.

An imperial edict providing for im-  
portant administrative changes also  
accepts the resignation of the Minis-  
ters, but until Yuan Shih Kai returns  
to Peking, Prince Ching will con-  
tinue to perform the duties of Pre-  
mier and the present Ministers will  
remain in office.

All the ministers attended a so-  
cret session of the national assembly  
today, which it is understood prac-  
tically agreed to the demands of the  
disaffected Lan Chau troops.

A member of the war board was  
appointed to confer with the troops  
and express the assembly's views.

The assembly also discussed the re-  
cent loan for which arrangements had  
been made with a Belgian and French  
syndicate. The Ministers explained  
that the loan was needed for the  
purpose of carrying on field opera-

tions. The assembly thought there  
was a good prospect of the termina-  
tion of hostilities and in that case  
the loan would not be necessary. It  
was finally decided to refer the mat-  
ter by telegram to Yuan Shih Kai.

FAILURE TO PAY.

A member brought up the ques-  
tion of the Shanghai Taotai's failure  
to pay the installments of the Boxer  
indemnity, and a Minister explained  
that two months' grace, with 4 per  
cent interest, had been allowed.

The panic which ensued among the  
people of Peking after the issuance  
of the first imperial edict has been  
largely dispelled, and the newspapers  
are beginning to sum up the results  
of the seventeen days' rebellion.

The Daily News considers that the  
appointment of Yuan Shih Kai will  
change the entire political complex-  
ion, restore peace, inspire the people

with confidence, command the respect  
of foreign countries and place the  
empire on a sound basis.

Reports received here state that  
Yunnan-Fu, Anking and several  
smaller cities in the provinces of  
Yunnan, Anhwei and Fukien have  
gone over to the revolutionists. The  
soldiers in North China are avowedly  
awaiting the action of Yuan Shih Kai.  
The government troops and the  
Shan Shi rebels are encamped not far  
apart. Apparently they do not intend  
to fight, at least at present.

Prince Ching has been made pre-  
sident of the Privy Council and Na-Tung  
and Hsu-Shih-Chang vice-presidents.  
Wei Kuang-Tao, formerly Viceroy of  
Kwang-Tung province, becomes Vice-  
roy of Hupoh and Hanan provinces, to  
which office Yuan Shih Kai was ele-  
vated when he was recently recalled  
from official banishment to restore the  
imperial authority in the Southern  
provinces.

DISTRIBUTION OF JOBS.

In the re-distribution of offices, the  
present Minister of War, General Yin  
Chang, who was in supreme command  
of the imperial troops until he was su-  
perseded by Yuan Shih Kai, is made  
chief of the general staff. This much  
of the programme has already been  
carried out. The army is being re-  
organized by the throne in the hope of appeas-  
ing the revolutionists, was made effective  
by an imperial edict today. Earlier in  
the day a telegram had been received  
from Yuan Shih Kai in which he asked  
that he be appointed acting Premier  
and sets forth his immediate plans for  
restoring peace. He proposed, he said,  
to stop the aggressive movement of the  
imperial troops and to open negotia-  
tions with the rebel leader, Li Yuen-  
Heng, forthwith.

The edict, as stated, accepts the  
resignations of the Ministers, which  
were tendered following the acquies-  
cence of Peking after the demands of  
the national assembly and the army  
league. Reference to Yuan Shih Kai's  
future preeminence is made as follows:

"When he has arranged matters a  
little in Hupoh Province, let him come  
to Peking and organize a complete

PRESIDENT'S INSPECTION

OF BIG FLEET TODAY.

(BY A. P. NIGHT WIRE TO THE TIMES.)

NEW YORK, Nov. 1.—The fleet  
has demonstrated its preparedness  
for any emergency and has shown  
the effectiveness of the present or-  
ganization.

George von L. Meyer, Secretary of  
the NAVY, smiled as he made this  
statement this evening on board the  
President's yacht Mayflower, after  
having inspected ninety-nine fighting  
ships of the Atlantic fleet assembled in  
the Hudson River for the greatest  
mobilization in the history of the  
American navy. President Taft will  
review the fleet tomorrow as it passes  
out to sea.

Leaving the Mayflower in a speedy  
launch, after having received on board  
Rear-Admiral Osterhaus, the com-  
mander-in-chief, and the division com-  
manders, the Secretary paid visits to  
the flagships of the fleet standing erect  
in the launch in silk hat held firm,  
and frock coat snapping as he sped  
from ship to ship in the face of a  
twenty-mile wind.

NINETEEN GUNS.

The Mayflower fired a salute of  
nineteen guns as he left her side and  
this salute was repeated by each of  
the seven flagships that he boarded,  
beginning with the Connecticut and  
ending with the little Dixie, tender of  
the torpedo fleet.

His call completed, the Secretary  
re-boarded the Mayflower, which had  
steamed to the upper end of the seven-  
miles of warships and passed slowly  
southward along the entire line, each  
ship saluting nineteen times as he  
passed. The echoes roared back from  
the New York shore after an interval  
so long that it seemed as if a second  
bombardment were going on in the  
streets of Harlem. It was 5:10 p.m.  
when he had re-passed the Connecti-  
cut on his return trip, marking the  
end of the day's formalities.

FOLLOW THE SECRETARY.

Members of the House Committee  
on naval affairs followed the Secretary  
on his visits to each of the flagships  
and were honored with a salute of  
seventeen guns. They, too, were grati-  
fied with the apparent efficiency and

## HASN'T TIME TO BE WED.

Postmaster-General Hitchcock  
Denies Rumors of Resigna-  
tion and Marriage.

(BY DIRECT WIRE TO THE TIMES.)  
WASHINGTON (D. C.) Nov.  
1.—[Exclusive Dispatch.] Post-  
master-General Hitchcock is  
not contemplating matrimony  
and he does not intend to re-  
sign.

"Unfortunately, it is not true  
either that I am going to be  
married or that I am going to  
resign," he said today. "I have  
outlined a winter programme,  
which I hope to get through for  
the postal service, and I am so  
interested in this work that  
resignation is out of the ques-  
tion. And I haven't time to  
get married."

## California Club Woman in Milwaukee.

Mrs. Elizabeth Lowe Watson,  
President of the California Women's Suffrage Association, who was one  
of the principal speakers at the National Women's Christian Temperance  
Union in session at Milwaukee yesterday. She declared suffrage was  
a great aid to the cause of temperance.

Enfranchisement.

WORKERS IN TEMPERANCE

CAUSE FAVOR SUFFRAGE.

National W.C.T.U. in Session at Milwaukee Hears

Speakers Discuss Victory in California—Mrs. Eliza-  
beth Lowe Watson and Mrs. Hester T. Griffiths Ad-  
dress Meeting of Convention on Woman's Rights.

(BY DIRECT WIRE TO THE TIMES.)

MILWAUKEE (Wis.) Nov. 1.—[Ex-  
clusive Dispatch.] Woman suf-  
frage in California and the victory  
in the recent elections took up a large  
part of the national Women's Christian  
Temperance Union convention this af-  
ternoon, at which Mrs. Hester T. Griffiths  
of Los Angeles, State president of the  
temperance organization, discussed  
the recent events in that State.

Mrs. Griffiths was given the white  
ribbon cross and was presented with  
some beautiful roses by her State dele-  
gates when she arose.

"The majority of our high school  
graduates are girls," said Mrs. Griffiths  
in discussing the problem of limiting  
the franchise to women with special  
educational qualifications.

"Only 3 per cent. of those imprisoned  
in the State penitentiary are women.  
I cannot see that the establishment of  
an educational qualification for either  
sex is possible, until women are en-  
franchised on at least equal terms with  
men."

An amendment to the resolution, to  
read: "Because it is just and believed  
that the best interests of humanity  
will be conserved and advanced by the  
ballot for women, we pledge ourselves  
to work for their enfranchisement on  
equal terms with men," was proposed.  
This, after a lengthy discussion, was  
adopted.

Mrs. Elizabeth Lowe Watson, presi-  
dent of the California Women's Suf-  
frage Association, a guest of the Na-  
tional Women's Christian Temperance  
Union convention, expressed her grati-  
tude for the efforts of the organization  
in California in behalf of women suf-  
frage at the meeting yesterday morn-  
ing. Mrs. Watson declared that the suc-  
cess of the suffrage in California would  
be of great aid to the temperance  
movement.

Transferred.

## FLAG OF DRAGON FLIES AT CANTON

Nine Foreign Gunboats Train  
Guns on Capital.

Rebels Plan to Cut Off All  
Revenues from Provinces.

Yuan Shi Kai Asks Germans  
to Protect Him.

[BY DIRECT WIRE TO THE TIMES.]  
HONGKONG, Nov. 1.—[Exclusive Dispatch.] The Swatow rebels have turned the Chief of Police seized all arms and ammunition and order the government banks to hold all deposits to their order.

The situation at Canton is unchanged. The Dragon flag continues to fly above the government buildings. Nine foreign gunboats are protecting the Shamen. They are the British Moorish and Robin, the French Argus and Vigilant, the American Wilmington and Calliope, the German Tsig Tan, the Japanese Uji and the Portuguese Macau. No alarm is felt.

Admiral Li, commander of the troops at Leung Chi Kwan will oppose the aim of the Protection Society to proclaim independence. It is stated that the rebels are planning a campaign throughout the province with the object of cutting off Canton's revenues and thus obtaining the peaceful submission of the capital.

Receptive Mood.

## TO TALK PEACE ON ONE BASIS.

AND THAT IS ABIDICATION OF THE  
MANCHUS.

Chinese Revolutionary Junta in  
San Francisco Is Quite Willing to  
Discuss Terms With the New  
Premier, But Nothing Will Suffice  
Except a Republic.

[BY DIRECT WIRE TO THE TIMES.]  
SAN FRANCISCO, Nov. 1.—[Exclusive Dispatch.] The revolutionists are perfectly willing to discuss terms of peace with the new Premier, Yuan Shi Kai, but only on the basis that there must be a complete abdication of the throne on the part of the Manchus.

We want a republic, and this can only be established by the complete wiping out of every Manchu in existence. These are the terms which Dr. Sun Yat Sen, our leader, insists upon.

"Our private adviser from China indicate that we will not have much trouble in inducing Premier Yuan Shi Kai to accept our views."

This is the official statement issued by the Chinese National Committee this morning on the proposed peace negotiations to be conducted by Yuan Shi Kai.

The Revolutionary Committee, from its headquarters in Spofford Alley in this city, is said to be the ruling body of the Chinese republicans, both in America and China. It is said to name the Governors of conquered provinces and to possess full charge of all diplomatic and political matters. No agreement between the Premier and the republican leaders in China will be binding, it is stated, without the approval of the local committee.

## YUAN SHI KAI ASKS GERMAN PROTECTION.

[BY DIRECT WIRE TO THE TIMES.]  
SHANGHAI, Nov. 1.—[Exclusive Dispatch.] Reliable information that Yuan Shi Kai has dispatched deputies to Tientsin to request the Germans to afford him protection in case fight is necessary was obtained today. His delay in coming out is solely due to fear of the rebels on one hand and of the Manchus on the other. He is constantly attended by sixty selected guards. He is threatened with death by the rebels unless he assists them.

The Chinese here do not trust Yuan. They regard the edict naming him Premier as having come too late, asserting that he is not now entitled to the post.

## TO CELEBRATE VICTORY WITH A BANQUET.

[BY A. P. NIGHT WIRE TO THE TIMES.]  
SAN FRANCISCO, Nov. 1.—[By A. P. Night Wire.] The Chinese Free Press report that the revolutionists had driven back the imperial forces and had established themselves in the town of Shangkou, about twenty miles north of Hankow. During the attacks against Hankow, the imperial forces were under the command of Gen. Fung Kwok Chong. It is also stated that the Peking government had received a telegram from Viceroy Chung Ming Chi of Canton, reporting his city to be at the mercy of the rebels. In reply the government instructed the Viceroy to consent to the general demands of the revolutionists with a view to holding that province in peace.

The Chinese National Association here is preparing to celebrate the victory of the cause at a banquet Sunday night, at which leading American business men and officials have been invited, including the directors of the Panama-Pacific Exposition.

Hear Rebels Are Satisfied.  
WASHINGTON, Nov. 1.—[By A. P. Night Wire.] The resignation of the Chinese Cabinet and the appointment of Yuan Shi Kai as Premier of the new Cabinet apparently is satisfactory to the rebellious troops in the province of Chi Li, according to official advices received in the State Department today.

Marching on Nanking.  
LONDON, Nov. 1.—[By A. P. Night Wire.] A news dispatch from Shanghai today says the rebels have seized Nan Chang, the capital and chief city of Kiang Si province, and are reported marching on Nanking.

## Mrs. G. S. Foster Who Faces Divorce Suit

[SPECIAL CORRESPONDENCE OF THE TIMES.]

LONDON, Oct. 18.—Mr. Thomas Becham, son of the millionaire manufacturer of pills, has been named as co-respondent in a divorce suit brought by George Sherwood Foster against Mrs. Maud Christian Foster.

Back on Job.

## MEDICINE HAT PASSES OUT SNOW AND BLIZZARD GALES

Zero Weather Prevails in North and South Dakota,  
Montana, Minnesota and Wisconsin—Mercury Gallops  
Downward at Chicago—Snow in Several States of Middle West.

[BY DIRECT WIRE TO THE TIMES.]  
CHICAGO, Nov. 1.—[Exclusive Dispatch.] Medicine Hat, where the fierce blizzards originate, got back on the map with a vengeance today when a blizzard began to envelop all of the Northwest, many of the Western and Middle Western States. Zero weather prevailed in the Dakotas, Montana, portions of Minnesota and Wisconsin, and the temperature fell below the freezing point in several other States.

In Chicago the temperature galloped down to 24 above, with indications that it would drop to 20 before morning. MANY SNOWSTORMS. The cold wave hit the Missouri Valley early in the day, bringing snow and freezing temperatures. Snow storms are reported from Central Kansas, Western Iowa, the Michigan Peninsula, portions of Minnesota, the Dakotas and Nebraska. Oklahoma and Northern Texas are due for a visitation tomorrow, and the cold wave is sweeping rapidly throughout the southeast.

It is said freezing weather will extend throughout the southeastern gulf coast country, with the exception of the extreme lower portion of Florida. It is feared this will destroy many vegetable and fruit crops.

## APPEASING THE REBELS.

(Continued from First Page.)

cabinet and carry out immediate reforms in politics and all other matters. "Pending Yuan Shi Kai's arrival, let the former Ministers continue their duties without negligence."

The leaders of the National Assembly met with Yuan's close friends today and decided that the government in addition to accepting all the demands of the army league must also appoint to high offices Gen. Li Yuan Heng, the rebel commander, and Tang Hui Lung, the rebel governor of Hupeh.

Yuan's proposals amounted to a union between the government and the revolutionists. One of the Main Conditions. TOKIO (Japan) Nov. 1.—[By A. P. Night Wire.] Financial circles here have been assured on reliable authority that the appointment of Yuan Shi Kai as Premier of China is one of the principal conditions under which the Belgian syndicate has agreed to float a short time loan for \$18,000,000 for the Peking government.

Veterans Are Drilled.  
MANILA, Nov. 1.—[By A. P. Night Wire.] Chinese veterans of the war with Japan are preparing to send a shipload of soldiers from Manila to China. Nearly all the old Chinese soldiers employed in or near Manila have been marshalled to the cause and are holding daily drills. Three companies of trained men are ready to leave.

The boy's appetite is often the source of amazement. If you would have such an appetite take Chamberlain's Tablets. They not only create a healthy appetite, but strengthen the stomach and enable it to do its work naturally. For sale by all dealers. (Adv.)

## STEAD ARRAIGNS LUST FOR BLOOD.

Tells of Horrors of Italy's  
Arab Massacre.

Wants Nation Refusing Arbitration Outlawed.

Calls Upon Churches to Take  
Steps Toward Peace.

[BY DIRECT WIRE TO THE TIMES.]  
LONDON, Nov. 1.—[Exclusive Dispatch.] Indignant disgust expresses the feeling of all Britons in connection with the Italian slaughter of Arabs in the oasis of Tripoli. Press and platform denounce the action as brutal and indefensible and the peace societies are taking advantage of the occasion to intensify the world hatred of war, and particularly of war which seeks to realize one nation's aspirations at the expense of another.

William T. Stead is just back from Constantinople, where he organized an arbitration pilgrimage to the governments and peoples of Europe. He will explain the objects of the pilgrimage at a mass meeting in London next Tuesday.

"Everybody is made sick by the deeds of the Italians in Tripoli," said Mr. Stead to the correspondent of the Los Angeles Times today.

"One cannot get for thinking of the horror of the guilty and the innocent, the young and the old of both sexes being hunted out of their homes and shot to death."

"Italy will pay dearly for these pitiless enormities. The time has come for Christendom to speak. I appeal to my fellow countrymen to protest. Treaties and moral restraints have been thrown to the winds and the peace of nations is in peril."

"Last month the churches moved in a body to prevent one black man from mauling one white man. Now, when fire and sword are rampant in Tripoli, and men, women and children are the sport of murderous and lustful soldiers, the Christian churches are silent."

"At my meeting next Tuesday I shall offer a resolution denouncing Italy's unspeakable crime and declaring the principle that every nation which declines to submit a dispute to arbitration shall be regarded by all other nations as an outlaw."

Play Promotion.  
MIXING WORK  
AND PLEASURE.

OPENS WITH VIEWS SHOWING  
CALIFORNIA PROGRESS.

Los Angeles is a leader in more ways than one—Free Use of Schoolhouses and Grounds Commended by City Superintendent. Inspect Playgrounds Today.

The Playground and Recreation Institute, under the auspices of the Association of America, opened last night in the auditorium of the Young Men's Christian Association, the object being to promote national, wholesome play and public recreation. The institute is being conducted by L. H. Weir, field secretary for the Pacific Coast, and the chief playground expert in attendance is E. B. De Groot, director of playgrounds at South Park, Chicago.

Miss Beattie Stoddard, president of the Los Angeles Playground Commission, in opening the institute last night, explained that in former years a national convention had been held, but this year it was decided to hold a large number of institutes in all parts of the country and thus come into personal contact with a much larger number of persons.

Mayor Alexander could not be present, and the address of welcome was delivered by E. P. Knappe, a member of the Playground Commission. In assuring the visitors of the gladness with which the city received them, he spoke of the old common, on which he

## Peeling the Face

(From Modern Housekeeping.)  
Women are beginning to realize how dangerous and how unnecessary is the painful and expensive surgical operation known as "face-peeling."

Many clever society women noted for their exquisite beauty, accomplish the desired result themselves at home, with perfect safety and no pain, expense or detention indoors. They simply use ordinary mercurized wax, which can be obtained at almost any drug store. It is applied at night like cold cream and washed off in the morning. The mercurized wax slowly absorbs the half-dead outer skin, causing it to flake off day by day in fine, almost imperceptible particles like flour. The fresh, vigorous young skin underneath soon shows forth, blooming radiantly with health and beauty. The face begins to look years younger, though the use of the process absolutely defies detection by the closest observer.

Naturally this process also removes all such minor facial blemishes as freckles, tan, moth patches, liver spots, fine wrinkles, pimples, etc.

played when a boy, and of the consequent necessity for some place for the boy and girl to play.

L. H. Weir gave an illustrated lecture on "Playground Development in California," in which he directed attention to the fact that California was the first State to adopt the development of playgrounds, under the control of a commission, and that Los Angeles is the only city that has progressed so far as to build a residence for the superintendent on the playground. There is a modern cottage on the Violet street ground and convenient flats on both the Echo Park-ground and Recreation Center. The views shown were of playgrounds in San Francisco, Portland, Seattle, Tacoma and Los Angeles.

J. H. Francis, City Superintendent of Schools, was introduced, and spoke on "The School as a Social Center."

He said, in part: "The new purpose is that the school buildings may become useful in a larger measure in the economical and social development of the community. The playgrounds, like so many other good things, have come into the school from the outside. The principle used to be to purchase enough ground upon which to build a schoolhouse, but now the school board is awake to the situation and makes ample provision for playgrounds. It is my belief that the playground must be joined with the school, so that the pupil may have the option between play and work."

He spoke of the desirability of having vacant lots cared for and beautified through the efforts of the school children, of the night schools as a development of a broader use of the buildings, and of the great change that has taken place in these schools in three years, indicating a higher grade of students each year.

The enrollment at the institute was not very large last night, but it is anticipated that the bulk of the delegates will come today from all the near-by cities, and as far south as San Diego.

At 10:30 this morning a session will be held in the Y.M.C.A. gymnasium, at which C. B. Raitt, playground superintendent of this city, will exhibit a miniature playground. After a discussion, a session will be held in the auditorium, on the subject of "Courses in Play," by physical instructors in the Los Angeles schools. Park Commissioner Silent will speak on "The Parks and Recreation."

At a luncheon, to be served at 12 o'clock in the Y.M.C.A. the subject will be "The Y.M.C.A. and Recreation." In the afternoon a tour of the Los Angeles playgrounds will be made in automobiles, and this evening there will be a demonstration of folk dances and an address by E. B. De Groot of Chicago.

## CRIME OF THE AX.

MOUNT PLEASANT (Iowa) Nov. 1.—Circumstances similar to those in recent ax murders in Colorado Springs, Colo., Monmouth, Ill., and Ellsworth, Kan., have led the local police to believe that the person believed to have committed these crimes was the assailant of Mrs. J. B. Jordan, found unconscious in her home here yesterday. Mrs. Jordan, a mechanical wife, was attacked and terribly beaten about the head with a heavy instrument. Evidently she had been left for dead. The woman has not recovered consciousness today. It is said she cannot recover. The police instituted a search for Charles Marzyek, the ex-convict, sought in connection with the Showman murders at Ellsworth, Kan.

## Theaters—Amusements—Entertainments.

MOROSCO'S BURBANK THEATER—MAIN STREET, NEAR SIXTH.

## BRIDE OF WEEK QUITS HUSBAND.

*Says She Has Another One  
In the East.*

*Asks San Franciscan for Rail-  
way Fare.*

*Wants to Return to Her  
First Spouse.*

**HONEYMOON.**  
[BY DIRECT WIRE TO THE TIMES.]  
SAN FRANCISCO, Nov. 1.—[Ex-  
clusive Dispatch.] To be happily  
married one week and then have  
her bride ask him for money to pay  
for a husband who was in the  
army in the East, has been the  
experience of Robert W. Peters, who  
yesterday filed suit for annulment  
of his marriage to Mary Frances Mac-  
aulay.

The license was issued to the couple  
on October 24. The marriage took  
place a few hours later. On Octo-  
ber 26, according to Peters, his wife  
broke into tears during a conversa-  
tion, and soon became hysterical. She  
refused to assign any reason for her  
outbreak. When Peters asked her  
if she was disappointed in him as  
a husband, she assured him to the  
contrary, but confessed that another  
husband awaited her in the East.

This declaration was followed by a  
request that he furnish her with  
enough fare to make the trip. Peters  
demurred and hid himself to At-  
torney McKee, with the request that  
the marriage be annulled.

In the meantime, Mary Macaulay  
has dropped from sight. Peters  
thinks she has returned to her  
home, as she had some money of her  
own.

Peters is 28 years old and the bride  
that came near being his is 26. Both  
are natives of Massachusetts. Peters  
has lived in San Francisco for some  
years.

## ZELLERBACH WILL BE FILED.

*Entire Estate of Paper Man Left to  
Wife, Who Is Trusted to Do Right  
Thing by Children.*

[BY DIRECT WIRE TO THE TIMES.]  
SAN FRANCISCO, Nov. 1.—[Ex-  
clusive Dispatch.] The will of the late  
Anthony Zellerbach, founder and head  
of the Zellerbach Paper Company,  
who died at his home, No. 1550 Fell  
street, October 7, was today filed for  
probate in the Superior Court. Jacob  
C. Isadore, and Henry R. Zellerbach,  
sons of the decedent and active  
heads of the paper company, who are  
named as executors, petition that the  
testament be admitted.

The will devises the entire estate  
to the widow, Mrs. Theresa Zeller-  
bach, with the statement:  
"I purposely make no provision for  
my children, although I love them all  
very dearly, but have full confidence  
in my wife and her love for all of the  
children and know that she will properly  
distribute to them."

There is no mention in the petition  
of the amount of the estate, which  
consists of both real and personal  
property. Some of the realty, it is  
stated, was conveyed to the children  
before his death by deed.

Besides the widow, the following  
are heirs:  
Jacob C. Isadore, Henry R. Arthur,  
of San Francisco; Eugene, of Los An-  
geles; Mrs. Belle Cross, Mrs. Hazel  
Platt and Miss Lillian Zellerbach, of  
San Francisco.

## RAISE BABES ON BOTTLE.

*NURSING OUT OF STYLE.*

[BY A. P. NIGHT WIRE TO THE TIMES.]  
SACRAMENTO, Nov. 1.—The fact  
that mothers who nurse their children  
are rapidly decreasing in number and  
the bottle-fed baby is becoming the  
rule is believed by the State Board  
of Health to be partially responsible  
for infant mortality, particularly  
among babies up to five and six  
months of age.

Figures prepared by the State  
Board of Health indicate that 59 per-  
cent of the 1029 babies that died of  
intestinal diseases during 1910 were  
between the ages of a few days and  
five months. The percentage from  
one to five months of age was 48.

These figures are held to indicate  
that the babies are, for a large part,  
victims of cows' milk or artificial milk  
formulas.

## TO ARREST AN ACTRESS.

*PERJURY IS ALLEGED.*

[BY A. P. DAY WIRE TO THE TIMES.]  
SAN FRANCISCO, Nov. 1.—A war-  
rant charging perjury was issued in  
Police Court today for the arrest of  
Rose Ranken, known on the stage as  
Rose Ranken, and a member of an  
opera company performing in  
Presno. In an affidavit introduced in  
the contested divorce trial of George  
W. Leek, a dentist, Miss O'Day in-  
volved Mrs. Leek with E. S. Bonelli,  
a money lender. Now Bonelli swears  
he has not seen Mrs. Leek for the  
past twenty years, while Miss O'Day  
alleges the pair were in each other's  
company as late as 1904. A deputy  
was ordered by the court to go to  
Presno and return with the actress,  
who must answer the charges here.

## REMOVING ITS PAPER.

*FROM STATE WAREHOUSE.*

[BY A. P. DAY WIRE TO THE TIMES.]  
SACRAMENTO, Nov. 1.—The Zeller-  
bach Paper Company today com-  
menced moving its stock of box-  
board paper which the State, through  
the Board of Control, refused to allow  
the State Printer Shannon to purchase  
from the State warehouse. It will  
require the rest of the week to move  
the paper. Foreman O'Farrell ar-  
rived this morning and with John  
Barry of the State board inspected  
the Zellerbach paper. The stock is  
valued at \$47,000.

## MIND AFFECTED.

*BY POLICE CHIEF'S DEATH.*

[BY A. P. NIGHT WIRE TO THE TIMES.]  
SAN FRANCISCO, Nov. 1.—Will-  
iam T. Murphy, who was engineer  
on the police patrol boat from which  
former Chief William J. Biggy is be-  
lieved to have leaped when he met  
death in the bay November 30, 1905,  
was taken to the Detention Hospital  
here today to be examined by the  
Lunacy Commission. The tragedy of  
Biggy's death has weighed on Mur-  
phy's mind so heavily that it is be-

## YELLOW JACK SCARES HAWAII.

*Special Session of Island Legisla-  
ture to be Called to Take Precau-  
tion Against Spread.*

[BY A. P. NIGHT WIRE TO THE TIMES.]  
HONOLULU, Nov. 1.—It is probable  
that an extra session of the Legisla-  
ture will be called here to handle the  
yellow fever situation. A mass meet-  
ing of citizens was held today, and a  
committee appointed to co-operate  
with the Health Board in a campaign  
for exterminating mosquitoes. For  
this purpose, the entire island will be  
disinfected. Forty non-commissioned  
officers of the army and navy have  
been offered as commanders of squads  
of citizens engaged in the work of  
draining and oiling stagnant water.

## SLOPE BRIEFS.

### Six New Coast Steamships.

SAN FRANCISCO, Nov. 1.—[By A.  
P. Day Wire.] Six new steamships  
for the Pacific Coast trade are  
planned by officials of the Pacific  
Coast Steamship Company. J. C.  
Ford, president, and George S. Hig-  
gins, vice-president and general man-  
ager of the company, left last night  
for New York to confer with the di-  
rectors regarding additions to the  
fleet. Increase of coastwise traffic is  
said to have called for the construction  
of the six proposed vessels.

### Gets Money Out of a Clock.

SAN FRANCISCO, Nov. 1.—[By A.  
P. Day Wire.] While attempting to  
silence a cuckoo clock that had an-  
nounced his intrusion, a burglar at  
the home of Mr. Lobitzer of this city  
last night discovered the family sav-  
ings bank. The burglar had looted  
several drawers and made a fruit-  
less search for money when the  
cuckoo clock disturbed his opera-  
tions. While attempting to trouble  
the cuckoo arrangement, the burglar's  
hand came in contact with a small  
savings bank containing \$25. Lobit-  
zer, alarmed by the disturbance, came  
downstairs in time to see the burglar  
disappear with the money concealed  
in the clock.

### Coram Postoffice Closed.

REDDING, Nov. 1.—[By A. P. Day  
Wire.] The postoffice in Coram, Cal.,  
was closed by order of the Postmas-  
ter-General today. On account of the  
enforcement of the law regulating  
poisonous fumes in smelter smoke,  
the smelters in the town closed, and  
the population dropped from 1500 a  
year ago to less than 100. The few  
remaining residents have petitioned  
the Postoffice Department for the re-  
opening of the postoffice. Coram mail  
will now be sent to Kennett.

### Long Distance Wireless.

VALLEJO, Nov. 1.—[By A. P.  
Night Wire.] Communication was es-  
tablished today for the first time be-  
tween the wireless station on Mare  
Island and the government station in  
Colon, Panama. Weather reports  
were exchanged. Messages being  
sent from Colon to Key West were  
later read. Mare Island operators  
have been endeavoring to establish  
communication with the Atlantic  
Coast since the receipt of a message  
from Washington ten days ago.

### To Save Fortune for Army.

SAN FRANCISCO, Nov. 1.—[By A.  
P. Night Wire.] August Heyman was  
arrested today on a grand jury indict-  
ment, charging the purchase of army  
clothing from soldiers. Army officers  
say the buying and selling of equip-  
ment from soldiers results in the an-  
nual loss of a fortune to the govern-  
ment.

### Two Injured Catching Fly.

SAN FRANCISCO, Nov. 1.—[By A.  
P. Day Wire.] In their anxiety to  
capture a fly, two San Francisco po-  
licemen, Thomas White and Charles  
Maher, were so severely injured yes-  
terday that they were sent to a hos-  
pital for treatment. The fly was of  
the baseball variety and the accident  
occurred while the men were prac-  
ticing at a local park. Maher's leg  
was broken and White lost several  
teeth.

### Woman Railway President Retires.

SAN FRANCISCO, Nov. 1.—[By A.  
P. Day Wire.] Weary of her duties as  
a railroad president, Mrs. S. A. Kidder  
of Grass Valley, Cal., rated as a mil-  
lionaire, has disposed of her stock  
in the Nevada County Narrow Gauge  
Railroad. Mrs. Kidder is said to  
have been the only woman railroad  
president in the United States. Mrs.  
Kidder says that she will now travel  
and rest. The assets of the Nevada  
County Narrow Gauge were \$671,082,  
according to the latest report of the  
State Railroad Commission. The  
company was incorporated in 1874.

### One-legged Body Found.

SACRAMENTO, Nov. 1.—[By A. P.  
Night Wire.] The unidentified body  
of a man about 50 years of age with  
but one leg was removed from the  
channel here this morning. The body  
had been in the water several days.  
It was brought to the surface by the  
churning of a steamer.

### Teacher for State Guard.

SACRAMENTO, Nov. 1.—[By A. P.  
Night Wire.] First Lieutenant A. B.  
Dockeroy of the Fifth United States  
Cavalry, stationed at Fort Ord, has  
been assigned to instruct the troops of  
the National Guard of this State. Ad-  
jutant General Forbes received the in-  
formation from the War Department  
today.

### WANTS ABSOLUTE DIVORCE.

*Wife of a San Francisco Lieutenant  
of Police Also Demands Custody of  
Her Minor Daughter.*

SAN FRANCISCO, Nov. 1.—[Exclu-  
sive Dispatch.] Lieutenant of Police  
David W. Boyd, for more than a quar-  
ter of a century a member of the San  
Francisco police department, was to-  
day sued in the Superior Court for  
absolute divorce by Mrs. Emma M. Boyd.  
They have been married twenty-five  
years and she asks the custody of  
their only minor child, Sadie W.  
Boyd, aged 16.

A property settlement, the wife says,  
has effected out of court and no  
alimony is asked.

While there is no mention of the  
amount of the settlement, it is under-  
stood that Boyd divided his wife's  
fortune of about \$40,000.

The Boyds were married here Feb-  
ruary 10, 1886, and have two daugh-  
ters, who are of legal age, in addition  
to the minor.

For several years, Mrs. Boyd recites,  
her husband has treated her in a  
cruel and inhuman manner, often in-  
flicting bodily injury.

On October 18 last she alleges, dur-  
ing the progress of a quarrel, he  
charged her with disloyalty.

### OREGON WANTS ANGELOS.

*Trio of Nineroths Alleged to Have  
Committed Perjury in Swearing to  
License Petition.*

[BY DIRECT WIRE TO THE TIMES.]  
PORTLAND (OF) Nov. 1.—[Exclu-  
sive Dispatch.] When George E. Bar-  
ber, president of the Harbor-Bradley  
Construction Company of Los Ange-  
les, William C. Barber, an engineer  
of the same city, and Norman Barber,  
14 years of age, after hunting for  
deer in the Klamath Falls country,  
left for home, leaving the head of a  
deer to be stuffed, they left a trail

Importance to Every Woman

## Tailored Suits to Your Measure

From 54 and 56 inch \$27.50  
\$1.50 Material, Complete  
Skinner's Satin Lined---Guaranteed Fit

By special arrangement with one of the best Ladies' Tailors in Los Angeles, we are prepared to make high-class tailored garments to your measure at, perhaps, the most remarkable price that has been announced in this city.

That it is possible for us to make these suits at such a low price, is due to the fact that this high-class tailor has made us a concession in price, in anticipation of the big volume of business. We, in turn, ask no additional charge, adding only the actual price of the materials used.

We want to impress upon you particularly that these suits will be guaranteed in every particular. They will be finished through and through with the best possible workmanship. In other words, they will be guaranteed satisfactory in every way.

This price complete includes the material, tailoring, findings, linings or whatever else goes to make the suit complete and absolutely correct.

You will realize what a vast saving this will mean when we tell you that the price is about the usual cost of making alone, from a high-class tailor of this kind.

Similar Suits From Any 48 inch. \$1.00 Material . . \$25.00  
Similar Suits From Any 52 inch. \$1.25 Material . . \$26.25

Extra charge will be made for material used for extra sizes.

THIS OFFER ALSO INCLUDES ANY MATERIAL IN OUR DRESS GOODS DEPARTMENT AT THE ABOVE MENTIONED PRICES.

### Two Styles Illustrated

These garments will be made right up to the minute from the very latest man-tailored Fashion plates. A limited number of orders will be taken at our Dress Goods Section, Aisle 4, Main Floor.

## The Best Oysters

### Now Sold A New Way

Fresh Sealshipt Oysters  
in Sealed, individual  
Packages, called  
Sealshiptens—just  
enough for a Meal

The new, sealed, individual oyster package is the latest triumph of an organization which has revolutionized the whole oyster industry.

And the new Sealshipten is just as far ahead of its times as Sealshipt bulk oysters were ahead of their times when all other oysters were shipped in open tubs.

The new Sealshipten puts an end to the practice of dealers who formerly palmed off other oysters as Sealshipt.

It makes it possible for you to rely on the purity and freshness of oysters as you rely on the purity and freshness of package soda crackers.

It makes it possible for you to know that you are getting the genuine Sealshipt.

Moreover, it enables you to get your choice of the world's best oysters—to buy the particular kind of oysters you prefer in individual ice cold containers.

You get solid oyster meats—no waste, a really economical food.

Northern Standards sell for 5 cents less than Blue Points.

"Selects" are larger oysters of the same kind—no better—merely larger.

They bring 5c more for the small Sealshipten—10c more for the large Sealshipten.

Ask your grocer, market man or fish dealer for a Sealshipten of these delicious oysters and learn for yourself the delicate sea flavor which the oyster naturally has.

Be sure to look for the Sealshipt shield—your protection against substitution.

(The variety stamped on top of the Sealshipten is your guarantee of the particular kind of oyster you prefer.)

## NONE CHOSEN FOR OFFICE.

Full Ticket to Be Voted on in Next Election.

Harriman Polls More Than Twenty Thousand.

Negro Is Socialist Nominee for City Council.

Complete returns from all of the 225 precincts in the city, as compiled by the City Clerk last night, show that, on the face of the semi-official returns, Job Harriman leads Mayor Alexander in the race to qualify for the December election by 2293 votes. Harriman received 16,790 votes and Alexander 20,182. The total vote cast for Mayor was 45,542 which is the highest vote cast for any candidate. The candidates must fight it out at the general election five weeks hence.

For the three other main offices—City Attorney, City Auditor and City Assessor—there was no election, though early returns indicated that there might be. The vote for the socialist-labor candidates for those offices was larger than for any other candidates on their ticket and this preference either of the Good Government or socialist candidates from having a majority.

For the Council the contest was between the two tickets of the Good Government organization and the socialist-labor ticket. The nearest ticket candidate was the socialist-labor ticket which received 3221 votes more than a thousand less than the number necessary to gain a place. Next to him was Frank F. Pratt who polled 7235 votes. Harold O'Brien, Queney, and Flory were the next in the order named.

Lusk led the Good Government Councilman ticket with 16,456 votes, receiving almost as many as the Mayor with 16,406. Fred Wheeler led the socialist-labor ticket with 15,741. The low vote on the ticket was for Joseph Queney, socialist-labor, who received 865 votes.

Analysis of the returns indicates that, while the preponderance of the socialist vote was on the East Side and made heavy on the Good Government stronghold. The vote for reversal of the estimates of the vote by the Good Government officials. It also shows a fallacy in their belief that the larger vote than 10,000 would surely mean the election of Alexander. Another enlarged the vote for the socialist-labor ticket with such unexpected pluralities the socialist ally of their candidates for Council and Board of Education. Most of them supposed that they were selected without reference to their fitness by most of those who voted for them. Wheeler, Mrs. Garbutt and Edward Adams, Education, are best known of all.

It was thought, even by the socialist candidate for the Council, would not qualify. In fact there was a large element of the laborer that voted for Healy in preference, but Whitley him, according to those who extended the returns from the colored districts. It is said by them that F. M. Roberts, who received 2647 votes, represents almost wholly a colored vote.

THE following is the completed official returns on the candidates for all municipal offices, as compiled by the City Clerk last night, in all of the precincts of the city:

**MAYOR.**  
Job Harriman 16,790  
Alexander 20,182  
Total 45,542

**CITY ATTORNEY.**  
John W. Shenk 2,198  
Edward W. Tuttle 19,732  
Total 42,690

**CITY AUDITOR.**  
George W. Downing 19,732  
John S. Myers 19,732  
Total 42,690

**CITY ASSESSOR.**  
Walter Mallard 41,865  
Anthony C. McGinnis 19,606  
A. M. Salyer 19,732  
Charles M. Smith 19,732  
Total 41,865

**CITY COUNCIL.**  
J. F. Anderson 3,258  
Alexander Louis Appel 13,477  
Frank E. Appel 13,477  
Martin F. Betkowski 13,477  
John F. Brown 13,477  
Frank P. Cross 13,477  
J. E. Davidson 13,477  
R. W. Dromgold 13,477

# WOMAN JUROR IS AN ERROR.

Ventura County Judge Will Thus Decide Issue.

Common Law Definition Is a Man Sworn to Serve.

Finds Supreme Court Silent on the Question.

VENTURA, Nov. 1.—Judge Robert M. Clarke of the Superior Court of this county does not believe that under the law women have the legal right to serve on a jury, and will so decide if the question comes officially to his notice.

"While I should personally be very glad to have women as jurors in our Superior Court," he states, "especially in cases affecting the rights of women and children, I am unable to concur with those judges in this State who seem to hold the belief that they are qualified to act. In other words, the adoption of the Constitutional amendment conferring upon women the right to vote does not necessarily confer upon them the right to serve upon juries."

"If they are competent to serve upon juries now, they were competent to serve as such prior to the adoption of this amendment, as Section 193 of the Code of Civil Procedure defining the competency of jurors says that among other things that they must be 'citizens of the United States over the age of 21 years,' and it will therefore be seen that the common law provided that a juror had to be a male citizen, and in fact, a couple of years ago a woman juror appeared in Judge House's court in Los Angeles when the matter was considered."

"There is no decision of our Supreme Court upon the subject, but there are many decisions of our Superior Court. The proposition that the Constitutional guarantee of the right to trial by jury means trial by jury as it was extended and afforded to litigants at common law. This is declared in State versus Koppikus, 16 Cal. 249; also in 72 Cal. 328; 85 Cal. 444, and an elaborate discussion of the matter is found in People versus Foxworth, 87 Cal. 155. The Code being silent as to whether or not the jurors should consist of males or females or both, and the Constitutional guarantee of trial by jury as defined by the common law, resort to Blackstone, volume 2, page 362, discloses the fact that a common law jury summoned under order of court by the Sheriff and returned by his venire, consisted of twelve free and lawful men of the body of his county."

"A juror, according to the common law definition, was a man who is sworn or affirmed to serve on a jury. A jury is defined to be a body of men who are sworn to declare the facts of a case as they are proven from the evidence. I cannot see that the adoption of the recent Constitutional amendment can in any way effect the subject of jury duty. In the State of Washington the Legislature has recently defined the status of a woman as a juror. She is not forced to serve unless she cares to, but she may do so."

"In the absence of a Constitutional amendment, or at least Legislative action in this State, I certainly think it would be error to empanel a woman upon a jury, though as I have stated I personally would welcome them as jurors in all cases in which the liberties or property rights of women or children are involved."

**DYNAMITE USED TO WRECK CAR.**

Trolley Passengers Have Close Call.

Imperialists Reported to Have Captured Hankow.

Jail or Work Prescribed for Son of Rich Man.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, Nov. 2.—A street car on the cemetery line ran into a small quantity of dynamite on Mission street between Thirteenth and Fourteenth streets late last night and was badly wrecked by the explosion which followed. There were twenty or more passengers aboard the car besides the crew, but nobody was injured. The front end of the car was lifted from the rails and shattered by the explosion, which tore a hole in the street. It is not known how the dynamite happened to be on the rails or how much there was of it; but it is thought to have been a small quantity, judging by the damage done.

**SWEPT BY FIRE.**

MANILA, Nov. 2.—[By A. P. Night Wire.] The Chinese district was swept by fire today, with a loss of over \$1,000,000. At noon the fire threatened to destroy the commercial center of the city, and the Twentieth Infantry, with Gen. Funston in charge, was called out to assist the fire fighters. The work of the soldiers saved the day and the fire was under control early in the afternoon.

**HANKOW CAPTURED.**

PEKING, Nov. 2.—[By A. P. Night Wire.] The War Office has received a report that the imperialists have captured Hankow and massacred the population.

**LATE CHINESE NEWS.**

SHANGHAI, Nov. 2.—[By A. P. Night Wire.] The edict appointing Yuan Shi Kai, Premier, and Yuan's active participation in negotiations with the rebels have considerably cleared the situation. It is evident that the revolutionists throughout the south are awaiting Yuan's word. While the government's action has been delayed so long as possible to seriously affect the negotiations, there is reason to believe that the tone of the edict will appeal to the sentiment of Chinese, and a few days may serve to settle the whole question. A great obstacle is skepticism regarding the sincerity of the administration of Peking.

Yuan Shi Kai has sent a wireless to Shanghai instructing the telegraph department to send operators and material for repairing to Hankow, indicating that he expects to have control.

Rear-Admiral Murdock, commander-in-chief of the Asiatic squadron, is distributing the smaller vessels to points where Americans are nervous. He expects to establish wireless communication with Hankow today.

**AMOY, Nov. 2.—[By A. P. Night Wire.]** There is grave anxiety over the influx of bad characters into the city. A minor encounter between roughs and the police caused the closing of shops and the market. Two armed steamers manned with soldiers will patrol the inland waters between Amoy and the turbulent Tungan district. There are less than a thousand soldiers in Amoy.

**KANSAS CITY, Nov. 2.—[By A. P. Night Wire.]** Eighty Chinese met here last night and organized a young China society. A collection of \$300 was sent to the revolutionary headquarters in San Francisco.

**AUTO KILLS PASTOR.**

NAPA (Cal.) Nov. 2.—[By A. P. Night Wire.] Rev. Charles E. Edgman, a minister of this city, was killed yesterday by his own automobile, when he cranked it without throwing out the clutch. The machine leaped forward when the engine sparked, and Edgman was crushed against a telegraph pole, succumbing almost instantly. He was 41 years old.

**LATE WAR NEWS.**

LONDON, Nov. 2.—[By A. P. Night Wire.] The Daily Mail correspondent, writing from Tripoli under date of October 27, describes the situation as extremely grave, and adds that the idea that the Turks and Arabs may recapture the town is not so impossible as may seem to the outside world. He says: "The Italian lines have been drawn in until they are little beyond the town itself. The failure of the attempt of the retreating Italians to blow up the old Turkish fort containing a large stock of shells makes it possible for the Turks merely to walk in and resume possession of the fort." The Daily Mail's Constantinople correspondent says: "The latest news from Tripoli re-

# LABOR OFFICIAL SHOOTS POLICEMAN WITH OWN GUN

Seizes Weapon from Officer and Empties It at Close Range—Was Celebrating Harriman's Shooting in Primaries—In Turn Is Wounded by Revengeful Victim. Show Him to Be Federation Secretary.

POLICEMAN JOSEPH ROMERO, Jr., was shot and seriously wounded at the Senatus Hotel, No. 618 San Fernando street, at 11:30 o'clock last night while attempting to arrest Pablo B. Landerer, shown by papers found in his possession to be secretary of the Spanish division of the American Federation of Labor and of the United Laborers' Union, No. 13,097, who also was shot through the back during the scuffle. Both men were removed to the Receiving Hospital, where it was found that one ball had entered the policeman's chest, penetrating the right lung, and another had entered the right thigh, passing through the pelvis bone and emerging at the back of the hip. While the wounds are considered serious, the police surgeons entertain hope of Romero's ultimate recovery.

Landerer received a bullet under the left shoulder blade and it lodged under the skin on the opposite side of the back. While painful, the wound is not considered dangerous. The trouble which culminated in the shooting began in front of Joe Pinnuchi's saloon at Bellevue avenue and San Fernando street, where Landerer had been drinking heavily with a number of laborites in celebration of the strong run made in Tuesday's primaries by Joe Harrison, the Socialist candidate for Mayor.

When the Mexican became noisy in demonstrating against the proprietors, summoned Patrolman George Bustillo and requested that the labor secretary be put out of the house. Upon reaching the sidewalk Landerer started diagonally across the street to the Senatus Hotel where he roomed, followed by Policeman Romero, who desired to ascertain the cause of the excitement. Romero caught hold of the Mexican at the head of the stairs, when, without warning, the latter seized the officer's revolver and began firing at short range. The first four shots buried themselves in the adjacent doors and walls, but the fifth and sixth sped true to the aim and lodged in Romero's body.

At this moment Policeman Bustillo, who had heard the shooting, ran up the stairs leading to the rooming-house with his pistol in his hand and as he reached the top step, his fellow-officer grabbed Bustillo's weapon and turned upon his assailant. Both men fell in their tracks, but later were assisted to the patrol wagon which meanwhile had been called by some of the spectators.

When the room occupied by Landerer was reached by Detectives Talamantes and Rico, a large number of membership certificates of the American Federation of Labor signed by Landerer were found in a bureau drawer, together with a large amount of campaign literature. The wounded officer is a son of Joseph Romero, Sr., the famous Spanish chef, and was appointed to the police force December 27, 1910. He is 27 years of age and resides with his family at No. 1827 St. John street.

**COINCIDENCE OR DESIGN IN SERIES OF DEATHS.**

(BY A. P. NIGHT WIRE TO THE TIMES.)

CHICAGO, Nov. 1.—Chicago police today pursued their investigation into the deaths of nearly half a score of relatives and acquaintances of Mrs. Louis Vermilya, to make certain whether or not the string of demises constituted only a remarkable series of coincidences, as Mrs. Vermilya asserts.

Nine deaths are included in the long list with which Mrs. Vermilya's name has been connected, including two husbands, two stepchildren, three children and two roommates at boarding-houses she kept.

Pending the report of the toxicologists who are examining the viscera of the last of the persons whose deaths have occurred beneath Mrs. Vermilya's roof, the police have made no arrests. No positive evidence of crime has been uncovered.

**NEW FACTS LEARNED.**

From letters received by the police and from separate investigations, new facts became known today in part as follows: This Mrs. Vermilya has said one of the members of the death roster, Richard T. Smith, a conductor, was only a boarder at her home, a former roomer, asserts the two claimed previously to have been married.

That R. N. Brington, a brother-in-law, had made love to the widow so as to investigate suspicious about the reason for his relative's demise.

The Smiths died during convulsions and after drinking some substance, whether medicine or not, being unsettled; but that the doctors gave the cause of death from descriptions of the symptoms given by the widow as acute gastritis.

Brington's story relating the confidential talks he had with the widow while he was courting her, was expected to develop new interest. In a talk with the police inspector of Peoria he said Mrs. Vermilya had periods of mental depression in which

she was fond of talking of death and the many visits it had made to those near and dear to her. He said to the police: "She told me it seemed strange to her that nearly everyone she knew well and cared for died, and asked me if I was afraid of death."

**PROTESTS INNOCENCE.**

Mrs. Vermilya told inquirers today she had some little knowledge of medicine and that she had acquired it to be of aid to neighbors and relatives in time of illness. She insisted she was innocent and condemning the police for maintaining a surveillance over her.

## WITH THUNDER OF MANY MIGHTY GUNS GREAT FLEET IS REVIEWED AT HARBOR.

*Beautiful Spectacle as Gunboat Vicksburg Carries the Commander-in-Chief Down the Long Lane of Warships—Three Million Incandescent Lights in Night Illumination—Officers Los Angeles Guests Today*

WHEN the pugnacious-appearing little gunboat Vicksburg began its stately passage down the long lane of grim warships at Los Angeles Harbor yesterday history was made on the Pacific Coast.

With the firing of the first thundering salute of thirteen guns from the armored cruisers in honor of the passage of the Vicksburg came the dawning of a new epoch which many of the prominent officials present said means the establishment and maintenance of a greater fleet on the Pacific Coast.

Never was there a more beautiful

Some of the Larger Ships of the Pacific Fleet, Reviewed at This Port Yesterday by the Commander-in-Chief and Guests. The twenty-six warships made an imposing and formidable showing during the day, and a brilliant night spectacle when illuminated. One of the submarines gave a diving exhibition for the benefit of the official visitors aboard the Oregon.

or entrancing sight spread before the eyes of Angelenos than was offered yesterday in the blue waters off San Pedro and Long Beach.

Silently twenty-six United States war vessels, wearing their battle gray, and with ominous black muzzles thrusting their noses through port holes, had stolen through the morning mists from the southern waters, and when the first faint light of the day came filtering through the fog the great throng that had gathered throughout the night saw the fleet lying at anchor one and a half miles off shore.

There was a stillness about the great Pacific Fleet that was awe-in-

spiring. But one flag floated from each warship with the exception of the flagship of the Commander-in-Chief Admiral Thomas, the cruiser California, which displayed the blue flag with two stars in the center.

With the breaking of day the harbor sprung into life almost instantly. Little launches began to spatter and stir in their berths, and their owners feverishly prepared them for the voyage out to see the fighters of the sea. One by one they snorted and chattered their way out into the outer harbor until the water was dotted with them.

Larger vessels, capable of carrying a

(Continued on Third Page.)

Ships Atwinkle.

## MILLIONS OF LIGHTS FLASH ON THE SEA.

THE keen interest in the arrival of the fleet, the formal review, and the coming and going of the swift fleet of launches, was equalled, if not eclipsed, by the vast enjoyment in the night illumination of the great ships. From the deck of the Oregon, the sun showed the faintest rim above Point Fermin, when the signal for "colors" was given from the flagship. Instantly twenty-four hands on twenty-four ships began playing the national air, while the flag was slowly lowered to the deck. With it came the signal flags used in full-dressing the ships for the formal review. As the flags touched the deck officers and men saluted and the guard detail presented arms.

Then came mess call at 6:30 o'clock, and 3000 jolly bluejackets, baring the thousands on shore leave, responded and discussed, during the serving of rations, the review and the part they had had in it.

A few seconds before 7 o'clock a red light on the 133-foot mast-head of the flagship California winked once, followed by a wink from a white light, then another wink apiece and the signal had been given for the ships in the fleet to illuminate. Ten seconds later the red light winked again four times in rapid succession. Instantly 2,000,000 incandescent electric lamps on the ships leaped into active being, showing against the silvery gray moonlight background each of the great vessels in outlines of living light. The mast, stack and hull of cruiser, torpedo boat, destroyer, every boat in the fleet except the two submarines, were outlined in the glowing lights.

At 8 o'clock the signal was given for the display of searchlights, which continued for an hour and a half. Each of the ships carries four or five of the big searchlights, and they played on the flags of the different ships, shot apparently unending rays of white light into the arching sky, picked up bell buoys and passing craft, and with objects on sea and land played hide and seek with each other. One powerful guiding ray was kept steady on the boat landing at Long Beach, where steam launches were carrying the officers of the fleet to the ball at the Virginia Hotel. At 9:30 o'clock the red light on the mast of the California did more winking and the searchlight display was ended. At 10 o'clock the same signal was again given, and in the wink of an eye the outlines of the vessels framed in electric lights, faded as quickly as the fairy disappears in a dream.

## THE WOMEN WILL SAVE THE DAY.

WOMEN of Los Angeles! It is for you to justify the confidence which the male voters of California placed in your intelligence and patriotism when they put the ballot in your hands—and you will do it.

There are 35,000 women voters in this city who have not registered. You have until November 9—seven secular days—in which to perform the duty. We know that it matters not that some, or it may be many of you, were opposed to being "dragged in" to politics. Your unwillingness to be voters does not lessen your sense of obligation, now that you are voters. The women voters who have been beguiled into adherence to socialism will be out in force on election day. Will not those of you whose clear heads and clean hearts tell you that a triumph of socialism on the 5th of December would be a triumph of disaster and retrogression, help to avert the shame and the sorrow of such a triumph by registering now, and by voting for peace and order at the election? Yes! You can with your ballots offset the viciousness that threatens to hurl our fair city into the mire. You can avert ruin—it is up to you to save the city. YOU WILL DO IT!

The stay-at-homes—registered and unregistered—among the male voters contained in their ranks very few Socialists. Socialism voted its full strength on Tuesday. It can gain very little if anything in December from the stay-at-homes, while Alexander will gain largely from those who will now shake off their apathy and vote.

The Mushet vote is not a Socialist vote, and the cause of good government will gain largely from this source. The Mushet voters, most of them, will line up for Alexander.

It is sometimes difficult for women to leave their household duties or for men to leave their places of employment and go to a registration office. One hundred men and women registration agents should be employed at once, and assigned to different districts to make a house-to-house and shop-to-shop canvass and register both women and men.

In the last analysis, Los Angeles must depend upon her women to effect her salvation. If they will see their duty and do it, and do it NOW, by registering, the city will be saved. If they prove indifferent and neglectful, Gold help our people, for the evil days will be upon them!

### ON THE INCREASE.

Volume of Business Handled by Postoffice Last Month Exceeds Corresponding Period of Last Year. The receipts of the Los Angeles postoffice for the month of October amounted to \$134,846.69; for the corresponding month of last year the figures were \$129,591.

The number of pieces of mail received during October, either misdirected or not addressed to the street and number, for which search was made, was 81,912. These were disposed of as follows: Correct address found and forwarded to points outside of the city, 71,794; correct address found and delivered by city letter carriers, 238,808; number of pieces sent to the general delivery to await call, 381,124; average number of pieces searched through the directories daily, 22,320; number of callers at the general delivery, exclusive of Sundays, for the month, 188,065; daily average, 7469; number of changes of address filed in postoffice during the month, 27,483; daily average, 937.

**DROPS DEAD AT WORK.** Patrick F. Delaney, 45 years old, a veteran of the Spanish-American War, dropped dead at No. 553 South Spring street yesterday afternoon while he was working as a plasterer. The cause is presumed to have been heart failure.

## WHOLE DAY FOR ONE MAN'S WOES

McNamara Taleman Tells of "Corruption Fund."

Accuses City Officials and Amuses the Court.

Thirty Out of Forty of Third Venire Excused.

Prejudice against certain city officials and his belief in a secret "corruption fund," to be used for purchases not set forth, caused the prosecution in the McNamara case to use the greater part of yesterday in examining one

tallesman. He was Lorenzo Romano, a real estate man of this city. Because of a fixed belief that the water department and Engineer Mulholland have not given his district enough water, Romano sent a series of anonymous letters to Mulholland two or three years ago.

Romano frankly admitted he was the author of the communications that caused the water department some annoyance and Detective Browne considerable work. The taleman appeared much amused over the digging up of the past episode and volunteered more than the defense wished him to do. Darrow passed Romano with flying colors, but the District Attorney immediately fastened upon the incident of the letter-writing to show that the man if chosen as a juror would be prejudiced against testimony Engineer Mulholland and other city officials may have to offer in the present case.

Judge Bordwell suspended judgment on the qualifications of the taleman

(Continued on Tenth Page.)

## FROM WOMEN TO WOMEN.

Progressive League Appeals to Every Eligible Voter to Register Immediately.

The following proclamation was formulated yesterday by the Women's Progressive League to be scattered broadcast in Los Angeles and to reach the eye of every woman qualified to vote at the December election:

To the women of this city who wish to re-elect Mayor Alexander:

Now is your time to act. Do not remain at home and feel sorry about the vote at the primaries. Go down town this day and ally yourself with the Women's Progressive League. Their headquarters are on the ground floor of the Merchants Trust building. Telephones P4436 and P4441. Give whatever you can in work, time or money. Register today. Be a deputy if you can. Immediate registration is imperative.

(Signed.)

MRS. GEORGE L. COLE, President.

MRS. OLIVER P. CLARK, Secretary.

Here are plain colors or fancy striped Gowns, made of the nicest of soft non-irritating outing flannel in a half dozen different models and trimming ideas. Especially pretty styles at

\$1.00, \$1.25 AND \$1.50

### Sale of Women's Suits and

Dresses, Continued

Don't fail to see this special purchase lot of Tailored Suits and Dresses sent to us by our buyer, who is now in New York. You will marvel at the styles and the values.

Suits at \$19.50 & \$25—Dresses at \$25

## The Harplike Kranich & Bach

### Beautiful Grands

Kranich & Bach Grand Pianos are instruments of superb finish and genuine "grand" quality. In the Grands you get the wonderful harp-like Kranich & Bach tone at its best.

### The New "Baby Grand" Priced at \$750

We particularly invite you to examine and try this new Kranich & Bach "Baby" Grand, one of the most wonderful instruments of its size produced. Though relatively a small piano, it has the full grand tone and the genuine grand quality. This instrument—and also many other Kranich & Bach Grands—now ready on our floor.

Full assortments of Kranich & Bach in both Uprights and Grands, priced at \$250 to \$1000—and purchasable on payments of \$10 or more monthly.

Kranich & Bach Player Pianos at \$350, purchasable on favorable terms.

## The Oil Industry.

EXTENDING USE  
OF OIL AS FUEL.May be Used on Vessels on  
Amazon River.Consumption of Oil in North  
Is Increasing.General News of Interest  
from Oil Fields.

With the opening of the Panama Canal, and perhaps before, a new market for California oil may be developed in the Amazon River country of South America, where the rubber industry is assuming large proportions. Capt. E. E. Brown, well known as a river pilot on the Yukon in Alaska, has just returned from South America with instructions to study the use of oil as a fuel for all sorts of craft with the idea of introducing it upon the Amazon.

Capt. Brown has spent the last three years in the rubber country and as a result of his work there are now fifteen steamboats of the type of those in use on the Mississippi and the Yukon being built for the rubber trade. If Brown makes a favorable report, all of these boats will be equipped to use oil.

Continual enlargement of the oil consumption of the North Pacific district is making itself felt in increasing shipments of oil from California to Puget Sound. The Standard Oil Company's fleet recently arrived at Seattle with upwards of 150,000 barrels of oil and big shipments of refined products. The Union Oil Company's fleet is being enlarged frequently to meet the heavy demands upon it. The Standard is bringing the 15,000-barrel ship, Lucas, around for the upper coast service.

At the present rate there won't be a coal-burning vessel left on the North Pacific in another year or two. Practically all the vessels under construction are to be equipped with oil burners. Even the North Pacific whaling fleet is beginning to use oil, two of the latest boats being so equipped. The steamship Hydades of the Matson Navigation Company is now being changed to an oil burner, and in addition is being converted into the only molasses tanker in existence with a capacity of 150,000 gallons.

The American-Hawaiian Steamship line is planning the construction of half a dozen new liners, similar to those now in the service for the Panama Canal traffic, the intention being to employ oil as fuel. The same is true of the half dozen or more steamships to be built for the Atlantic and Pacific Transport Company. Almost all the Puget Sound vessels now use oil.

Yet with all this use of oil by steamships and the transcontinental railroads employing it on the western side, the production of coal is maintained. Washington is turning out as much coal as ever, and is buying heavily from the British Columbia colliers. The Lawson mine, near Seattle, was destroyed by fire a year or more ago, but the enlargement of other mines and the opening of new coal deposits have taken care of the increase. The Northern Pacific has just about gone out of the retail coal business, which was conducted by the Northwestern Improvement Company, and it is predicted that the use of oil west of the Cascade Mountains will eventually put the company's mines permanently out of commission.

CALIFORNIA MIDWAY.  
PRESIDENT'S REPORT.

A. T. Jergins, president of the California Midway Oil Company, has just reported the condition of the company's holdings to the stockholders. By the sale of fifty acres of its land the company is relieved from the payment of any royalty and gets from the continuous running of two strings of tools. The company now owns 110 acres. The report states that well No. 1 is now producing 255 barrels of oil a day. Of the company's six wells, No. 1 is the only producer, at the present time, the work on the others is said to be in a satisfactory condition with one or two exceptions.

## New Richard in Field.

The holdings of the Philippine Oil and Gas Company on section 15, 21, 22, near Midway, Kern county, have been taken over by the Toronto Midway Oil Company of Toronto, Canada. J. M. McLeod will serve as manager and some extensive development work is to be started at once. The company is said to have plenty of capital at its command, and no expense will be spared to fully develop the land.

## VISIT BEST FACTORY.

[BY DIRECT WIRE TO THE TIMES.]  
Growers Look Over Ground at Oxnard Where They Have Entered Contracts.—Treat Fishing Clubs.  
OXNARD, Nov. 1.—[Exclusive Dispatch.] Twenty-five beet growers south of Los Angeles arrived in this city to visit best sugar factories. All the members have entered big contracts with a local factory to furnish them with beets for the coming season, and they came in a body to see the plant where the cutting will be done.

The party represented Compton, Santa Ana, Long Beach, Huntington Beach and other cities, and they made annual visits to factories handling beets. Last year they visited the China factory.

Hundreds of lovers of fishing from all over the county yesterday invaded the various trout streams for the last time this season. Trout have been running good in Ventura River all season.

## ONLY FOUR BOATS.

WASHINGTON, Nov. 1.—That only four vessels out of more than a hundred, and these the smaller type torpedo boats, should have failed to respond to the sudden call for the mobilization of the Atlantic fleet at New York yesterday, is regarded as a matter of congratulation at the Navy Department. The missing vessels were the Linkey, which blew out the boiler tubes soon after leaving Charleston, the Barney, which injured her tubes by using salt water in her boiler when fresh water was exhausted, and the Craves, which smashed a boiler during a gale, and the Nina.

PROGRAMME  
FOR TODAY.

10 a.m.—Admiral Thomas and sixty officers will come ashore to be guests of the Chamber of Commerce.  
10 to 11 a.m.—Visitors allowed aboard all vessels, except submarines, but not allowed to take photographs or make drawings.  
12 noon—Admiral Thomas and sixty officers will be guests at a luncheon at the Jonathan Club.  
2:30 p.m.—Admiral Thomas and 120 officers of the fleet attend garden fete at the home of Dr. W. Jarvis Harlow and Mrs. Hugh Livingstone Macneil on South Figueroa street.  
1 to 5 p.m.—Visitors allowed on all warships.  
7 to 10 p.m.—Warships to be illuminated until 10 p.m.  
8 to 9:30 p.m.—Searchlight display.

## GREAT FLEET IS REVIEWED.

(Continued from First Page.)

half hundred persons, and still larger ones used in passenger traffic up and down the coast, begun to move steadily out toward the warships. The twenty-six ships, composing the largest fleet ever gathered at one time on the Pacific Coast, left San Diego Tuesday night and arrived off Long Beach at 10 o'clock yesterday, when they ran into a heavy bank of fog and anchored. With the coming of daylight the vessels, moving in two lines about 1000 yards apart, and the warships about the same distance from each other, moved majestically forward until the flagship was within a short distance of the entrance to the outer harbor.

There was still a heavy mist and a good view of the ships could not be obtained from shore. About noon the fog lifted rapidly and the sun came out in all of its Southern California glory revealing every detail of the long line of vessels.

## ARMADA AT ANCHOR.

The armada was anchored in a picturesque manner, and one which brought out in every detail its ability to withstand attack or to take the initiative, as might be required. The armored cruisers California, Maryland and South Dakota, each of 12,500 tons displacement and of 25,000 horsepower, and heavier, larger and swifter than the famous battle-scarred Oregon, occupied the first division. The flag of Admiral Thomas flew from the California. They were arranged on the land side of the anchorage. On the other side were the West Virginia and Colorado, of the same displacement and horsepower, and the great cruisers in the first division, and the Oregon, the only battleship in the armada, and the one about which centers the sentiment and appreciation of the Pacific Coast.

At either side of the great sea-fighters, and spread out as though with the object of warding off danger from unseen forces attacking the larger ships, were the swift torpedo boats and the swifter torpedo boat destroyers. They lay long and rakish, with slanting funnels, and painted black, and the armada became a spectacle that appealed to the fiesta-loving public.

The sound of a brass band playing came faintly across the water from the Colorado as the famous musical organization of that ship practiced in preparation for the day's work.

Little gray steam launches bearing natty coxswains began to dart back and forth, carrying messages and orders from the admiral's ship to the commanding officers.

## SEAWARD RUSH.

On shore everything was a hum. In the city, twenty miles away, the same atmosphere was evident. It centered around the railroad stations, both steam and electric. Crowds began to gather early at the Pacific Electric until the big ferry jammed.

Trains of three and four coaches were sent flashing out of the terminal at one-minute intervals. Still the crowd continued. Long Beach and San Pedro cars were overwhelmed with the curious ones headed for the naval review. At the Southern Pacific and Salt Lake stations the same conditions existed, and special trains were sent away at short intervals.

In San Pedro the greatest crowd gathered, and practically every launch and vessel capable of the passage to the outer harbor was circling and wheeling about the wharves. Their owners and crews were bellowing orders to carry the people out for so much per head, and by 10 o'clock the public began to swarm seaward. From that time on until dusk the crush continued.

The largest of the numerous boat excursions was that under the auspices of the Pacific Navigation Company. The Yale, the fastest passenger boat on this coast, filled an interval in its schedule with a trip to where the fleet lay at anchor. A special train on the Salt Lake Railroad brought 1500 visitors from Riverside, San Bernardino, Pasadena and enough more from Los Angeles, Long Beach and San Pedro to make a total of 755. At the Pacific Navigation Company, Frank Adams and other officials of the railroad company yielded the place of host to E. F. Cullen, district passenger agent of the steamship company. The Yale nosed her way in and out of the lines of warships until all had been passed, after which she stood by outside the 700-yard line until the formal review was over.

About noon the official committee from the Chamber of Commerce began to arrive. They came by automobile, and train, and by 12:30 o'clock the members were on the wharf. The first launch away left at 12:45, and was followed immediately by six other launches bearing the committee and the admiral's guests. As the launches approached the Vicksburg, to which Admiral Thomas had transferred his flag, and which was to be the reviewing vessel, the flags were dipped in salute. When the committee, headed by President James Slauson, mounted the gang-

waiters, for the most part Filipino wardroom boys and stewards, served the luncheon.

An hour was passed pleasantly in this manner when the signal was given for the steam launches to take the guests to the Oregon, the only battleship in the fleet.

On the Oregon there was no effort at entertainment. The battleship was sufficient in itself. The spectators passed over the warship reverently and saw the battle scars that still remain on the turret—the marks left by Spanish shot and shell.

The Grampus and Pike, submarines accompanying the fleet, drew up close to the Oregon and the guests were told that they would dive below the surface and perform various feats.

It was rather uncanny to see the men from the deck of the two submarines disappear into the little man-hole leading into the bowels of the vessels, and then see the mass of iron and steel slowly sink, only to arise on the opposite side of the battleship. Time and again this was done, and the death-power of the submarine vessels illustrated to a degree.

December styles in Pictorial Review Patterns, on sale. Nos. 4267, 4269 and 4261 are very attractive designs for dresses.

The Doctor's Answers On  
Health and Beauty Questions

By Dr. Lewis Baker.

The questions answered below are general in character; the symptoms or diseases are given and the answers will apply to any case of similar nature.

Those wishing further advice, free, may address Dr. Lewis Baker, College Building, College-Elliott Sts., Dayton, Ohio, enclosing self-addressed, stamped envelope for return. To give name and address, and to give only initials or fictitious name will be in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

Continue two or three months.

Mrs. E. F.: If you are only 15 years old and your hair is falling out, you should be treated locally with plain yellow mineral. The itching is due to poor circulation and you need a stimulating tonic of which the following is adapted. Comp. syrup of hypophosphites 1 oz., strychnine tincture cadomene comp. 1 oz. (not cadomene), mix and take a teaspoonful after each meal. Continue treatment 2 to 4 weeks.

John L.: The intense itching of the scalp and other portions of the body mentioned should be treated locally with plain yellow mineral. The itching is due to poor circulation and you need a stimulating tonic of which the following is adapted. Comp. syrup of hypophosphites 1 oz., strychnine tincture cadomene comp. 1 oz. (not cadomene), mix and take a teaspoonful after each meal. Continue treatment 2 to 4 weeks.

Ralph M.: Candidly, I think you are too impatient and unreasonable. You should not expect to get flesh in one or two weeks. Continue taking 1 grain hypophosphites tablets for a period of 4 to 6 weeks, and then your gain should be rapid. The other prescription is also advisable.

L. N. B.: Your trouble is chronic indigestion and torpid liver. See answer to Mrs. K. M.

Mrs. K. M.: Acute pain in the pit of the stomach, under the shoulder blade and the small of the back, with gas and wind, coated tongue, nausea, weakness, cold feet, irritability, nervousness, indigestion and bowel disorders. First, have this prescription filled: Comp. essence cardiotonic, aromatic cascara, 1 oz., fluid extract walrus 1 oz., and tincture cadomene comp. 2 oz. Take one teaspoonful after each meal. Also obtain tablets tripeptine and take according to directions in second package. This treatment will restore normal conditions.

C. W. H.: Says he suffered with nervous prostration 3 years ago and has never recovered. Lately his symptoms are extreme nervousness, weak, tired, worn-out feeling, dizziness, irritability, no energy, and inability to act naturally under all circumstances as of old. The least exertion tires him. His limbs and body are often numb or aching. Regular daily calisthenics or exercise which cause into play every muscle of the body should be followed. Also take the following: Tincture cadomene comp. 1 oz., comp. essence cardiotonic 1 oz., syrup hypophosphites 1 oz., mix and take a teaspoonful before or after each meal; after the first week gradually increase the dose to two teaspoonfuls.

Herman: For out-of-order kidneys, lumbic back, rheumatic twinges, etc., I recommend the following: A splendid kidney tonic with curative action on bladder and urinary tract: Fluid ext. walrus 1 oz., comp. fluid balsam 1 oz., syrup cascara 1 oz., mix and take a teaspoonful before or after each meal; after the first week gradually increase the dose to two teaspoonfuls.

#### GOOD SUGGESTION.

That's a very good suggestion which Mr. Hecht makes through the columns of the Times, namely, that a joint observance of Thanksgiving Day be made by all the people of Los Angeles, the observance to be of a religious nature. We know of no Congressman of any religious sect whatever in Los Angeles who would not gladly speak at such a celebration.

#### IN THE MEANTIME.

In the meantime, while Mr. Taft is effecting his arrangements for universal arbitration among nations, with the ultimate view of disarmament, these naval reviews on both the Atlantic and the Pacific oceans will serve to inform the world that the United States is in pretty good shape to defend its people should an enemy break through the ropes.

#### SEEMS POSSIBLE.

We can hardly believe our own correspondent at Santa Barbara, who sends word that only one man has expressed a desire to be Mayor of the charming Channel City. Is it the fact that the citizens of Santa Barbara have no zest for politics, or are we to suppose that the "one man" above mentioned is so beloved that no other will stand forth to oppose him?

#### GENEROUS SPIRIT.

Long Beach has issued 2000 invitations to a party given in honor of the visiting fleet. This has been the spirit of Long Beach toward every naval party that has touched its shores. Long Beach is essentially a city of the sea and when the western coast reaps its increasing harvest of ocean business its progressive people will share in that high tide of prosperity.

#### FALSE VALUES.

A Mormon preacher, who was one of the Socialist candidates for Councilman, in his rant about the anti-picketing ordinance, called it damnable and inhuman. We wonder what he calls the noisy parading of paid bruisers up and down the pavement in front of a man's business, doing everything in their power to intimidate custom and to destroy what this man may have been a lifetime in establishing?

#### AN OLD GRUDGE.

It cannot be denied that the Manchu dynasty has lasted a great deal longer than it had any right to expect to last. The grudge which the people of China have against the Manchus is several hundred years old. It began with the time when the Manchus made the Chinese wear pig tails as a badge of servility. And now it has come to pass, as Byron said: "There never yet was human power That could evade, if unforfeited, The faithful watch and vigil long Of him who treasures up a wrong."

#### HIGH HEELS.

The Humane Society and the Society for the Suppression of Unnecessary Noises should join hands with the W.C.T.U. in the fight which that organization is making against high heels. Women are about to rule the nation politically, as they have ruled it otherwise, for a long time past. But they can never fully enjoy their power if they are not emancipated from high heels. The direct and awful result of high heels is corns, and no woman—or man, for that matter—can be happy while suffering from those cruel pedicarian protruberances.

#### PUSH AND PULL.

Those who have fallen short of the average attainments of their fellow-men generally have some cut-and-dried excuse to account for this failure. One of the commonest is that they have never had the "pull" that has helped their more favored competitors. They overlook the fact that the "pull" they deplore is dependent on a push they never exerted. For push, not pull, is what forces a man to the front. He who has pushed himself into the first rank has the privilege of pulling his friends after him. That is all.

But, like most shallow thinkers, the disgruntled ones persist in confounding the cause for the effect. They must first do some pushing before they can expect to be pulled.

#### SENSIBLE PRACTICE.

We are informed that easterners are falling into the sensible practice of paying their way to California, while planning to come here to reside. For instance, a man holding a good position in the East, nevertheless possessed of the wholesome and perfectly natural desire to come to California to live. But, being a sensible man, he resolves to pave his way. And how does he do it?

Generally, he directs some friend here to secure a five or ten-acre piece of land for him. He then directs that the land be planted to some kind of profit-yielding trees. By easy payments, the easterner is able not only to pay off the price of the land, but also to pay for its planting and its care during the time required to bring the trees to the stage where they will produce an income.

The owner then can safely resign his position in the East and move out here to dwell under his own roof-tree. He is provided for before he arrives. He does not have to guess as to how he can secure a salaried position. He has no worries to face. More than all, he is in a frame of mind to enjoy California from the very start. We commend this practice to our eastern friends who contemplate a residence in California.

#### THE OLD GUARD TO THE RESCUE.

Los Angeles is in danger from Socialists, Reds and Cranks!

The existing local Good Government party (so called), is jeopardized in its tenure of power, and must struggle desperately for the perpetuity of its political life.

It fell short of its boasts, claims and expectations in the primary elections of Tuesday, and the head of the ticket, George Alexander, was discreditably beaten at the polls by Harriman, the common representative of the common-level Socialists, the destructive communists, the incipient and open anarchists, the lawless trades-unionists, and the wrong-headed element generally. The partial success of this dangerous and abnormal combination has made them ravenous for control and hungry for power; and their eager and reckless leader dilated with the delusions of hope.

The dangerous hands of this dangerous conspiracy against the city and the people's best interests must be stayed—stayed by the people who have made Los Angeles what she is—the glorious child of a glorious parent and the luminous promise of the Great Southwest.

Let the old Republican Guard—let patriotic citizens of both the stable, sane and rational old parties get together, and save the day in December, and, saving the day, save the city!

The Republican Old Guard has suffered insult, reproach, false accusation, and the impugning of its motives and acts at the hands of the incongruous elements composing the party in power locally. All this is true; yet, despite this disgraceful and contemptuous course on the part of its power-drunk antagonists, it has still left enough power to save the day for the city of its toil, its achievements and its love!

The Times calls upon the Old Guard, in whose ranks it has always been proud and willing to serve, to mobilize for the coming battle, to aid powerfully in the needed work of sweeping into political oblivion the ravenous hosts now howling at the gates of the citadel of civic and industrial liberty, to come to the rescue by saving the city—little as we love it—from capture and destruction. It is a DERNIER RESORT—the desperate need of the hour!

#### THE ART OF "GETTING TOGETHER."

If Los Angeles is to be saved from the disaster of socialist rule, those who voted for Mushet, those Republicans, insurgent Republicans and Democrats who voted for Alexander, and especially those Republicans and Democrats who did not vote at all, must get together.

"Getting together" must, in the nature of things, be accomplished by united effort for a common purpose. The lamb is willing to lie down with the lion, but he is not willing to lie down with the lion. It is a fact which cannot be denied that thousands of voters who, under other circumstances, would have cast their ballots for Alexander, kept away from the polls and did not vote at all, because they were angry and disgusted with the bumptiousness and narrowness of some of those associated with Alexander. When a member of the Republican Old Guard is abused and called a "reactionary," and a "boss-ruler slave of special privileges," and excluded from committees, and given a back seat at meetings, and President Taft—whom he loves—is compared to a Chinaman, he does not accept with composure the insults and humiliations heaped upon him, and his resentment is apt to take the form of allowing those who have seized the reins to drive the team to the devil in their own way.

This was illustrated in New York at the last election, when enough regular Republicans refrained from voting—because of the arrogance and dominating policy of the Rooseveltian insurgents, who had obtained control. It was illustrated in Los Angeles on Tuesday in the same way.

The Times refers to this situation more in sorrow than in anger. It has no ambition and never did have an ambition to pose as a dictator in politics. It mentions these facts because its heart is in the work of keeping Los Angeles out of the clutches of Harriman and his associate Socialists. It sees that the only way to achieve this end is for good citizens—Democrats, old line Republicans and insurgent Republicans—to get together, and the only way to effectively get them together is for each to treat the other as a gentleman should treat his equal.

The Times suggests that those in charge of the Good Government Organization invite leading and influential regular Republicans and insurgent Democrats to join them—as equal allies and not as humble advisers—in the formation of plans and in the conduct of the campaign for the election of Mayor Alexander next month.

Such an organization, made and carried forward in good faith, would sweep socialism into defeat and insignificance.

As for the Times, while it has differed widely from the Alexander managers and has been abused for it, without reserve, it nevertheless now bids them success, and will work faithfully, without reward or hope of reward, to help them save the city. Close the ranks! Solidify the citizens' phalanx!

#### THE PRIMARIES—SOME REASONS.

The primary election has come and gone. It is of not much use to hold a post-mortem or seek to find out what or who "killed Cock Robin." But J. A. Graves, a Los Angeles banker of long and high standing, presents in a letter published in another column of this issue some strongly put truths regarding the causes of the failure of Mayor Alexander to be re-elected on Tuesday. In a word, the sowers of dragons' teeth have raised a considerable crop. Now the Times means all that it says and is saying about a "getting-together" of the opponents of militant socialism. It will do all in its power to bring about such a desideratum. It has no desire to indulge in carping, in crimination and recrimination in stirring up the animals. Now is the time, however, for any plain speaking, before the campaign goes further. Let the subject be thrashed out now and quickly, then dropped. Mayor Alexander has had some unfortunate, political associates. He recently saw fit to belabor the Times, but the Times has often criticized

### Latest Peace Movement.

him—so let it go at that. The Times hopes he will be re-elected. Whether he cares for the support of the Times or not makes no difference. The Times realizes that it is for the welfare of the city and will avert a great peril to rally and elect him. No matter what has been said by the Mayor about the Times or by the Times about the Mayor, in the past, the Times will say now that he stood up like a man when an endeavor was made by Earl and other millionaires to dictate his action on telephone rates. This telephone-rate war was made a feature of the campaign by the opposition to Alexander and proved to be a club that drove many voters from him. Earl's raw attempt to saddle a burden of hundreds of thousands of dollars on the people in the form of a rise in rates in his telephone company proved to be one of the prime factors in cutting down the Alexander vote. It should not have been, inasmuch as the Mayor and most of the City Council stood out against Earl and thwarted him—let the people remember that—but the citizens voted their resentment against the attempted outrage. Other reasons for the result have been and will be mentioned—so be it. But let the people not be confused in mind as to this thing. Let them not forget that Mayor Alexander would not take orders from Earl in the telephone case. And let us all pull together for the victory of Alexander in the coming election, without regard to rows, political alignments or personal differences of the past. Enough said. The Times is confident that Harriman will be defeated and is glad to see all the reinforcements from the ranks of the opposition now gathering around the Alexander standard.

#### ROYALTY SPEAKS.

Out of the mouths of very babes and sucklings hast thou perfected strength because of thine enemies," sang the Psalmist of old, and "out of the mouth of a babe and suckling have we eaten humble pie because of our transgressions," might well be echoed by the advisers and counsellors of the present Emperor of China.

This helpless child, according to his official utterances, has already reigned three years and has "always acted conscientiously in the interests of the people; to which statement he is made naively to add, "he is without political skill." Dodging the nursemaids, fighting the morning and evening bath-tub and pulling away the feminine fingers that prod his royal gums to detect the first tooth coming through, must be his chief errors in "contravening constitutionalism"—another of his precocious failings, according to his next confession.

There is something pathetic and poetic in a later plaint, put into his baby lips: "The people are grumbling, yet I do not know! Disasters loom ahead, yet I do not see! Poor, little kiddy! Perhaps, could he have known or could he have seen what his advisers ought to have perceived and understood long before he was born, he would sooner have been mothered by a half-saved coolie-woman on the banks of the Yangtze than been thrown helplessly into the breach between the misgovernment of the Manchus and the savage swords of the rebels.

The little Emperor's worst affliction, however, is reserved for the concluding sentence. "The spirits of my nine deceased ancestors are unable to enjoy the sacrifices properly." It is hard for us with our western notions to realize how much this means to the children of the Orient. It out-joins the afflictions of that long-suffering patriarch. Yet we cannot help thinking of these nine deceased ancestors had shown chief errors in "contravening constitutionalism"—another of his precocious failings, according to his next confession.

However, indifferent we may be as to the fate of the Manchu dynasty and the sorrows of the nine ghostly ancestors, we have nothing but pity for the little baby Emperor himself.

#### HAS HUMAN NATURE CHANGED?

We certainly are not so frankly brutal in our methods as were our far-back ancestors in the Middle Ages. In times of tranquility we are really very nice and obliging to one another. History informs us the court manners of Louis XV were beyond reproach; gallantry and civility were very much in evidence, piety was extolled and religion rewarded. French manners were very suave in the year, A. D. 1788. And in the year 1793, Paris witnessed one of those periodical outbursts of the underlying human, the claw in the velvet, the passion behind the profession, beneath the smooth skin of the Rousseau, the ravenous beast of the Robespierre.

This happened, relatively speaking, not so very long ago. Five hundred years prior to the French Reign of Terror the Mamelukes massacred 60,000 Christians after the second battle of Acre. To go further back, 1600 years have elapsed since the Arabs slaughtered 50,000 Romans at Aiznadin in Southern Palestine. In the very dawn of the present historical epoch, Barak and his fierce tribesmen exterminated nearly the whole native race of the Canaanites in the bed of the River Kishon. The savage lust for destruction breaking out continuously through all the ages did not show a marked abatement in the French Revolution, or any discernible improvement in humane dealings over the ruthless warfare of Canaan, Turkey or Arabia.

Have we much reason to believe that the advance in the practice of brotherly forbearance has been very rapid, after all, in the 120 years that have followed the inauguration of the guillotine by the wolves of the Paris Commune?

The Chinaman, as we see him in the streets of Los Angeles today or working in the vineyards or the vegetable gardens, seems a very meek and peaceable individual. Yet in the city of Hankow others of these same quiet, almond-eyed children of the East, are just now hacking and chopping one another to pieces in a hand-to-hand conflict; while Manchus are burning whole villages and their inhabitants on the one side, victorious revolutionaries are beheading without pity helpless captives on the other. Italy is one of the chief civilized nations of the world, as thoroughly modern and Christian as any country in Europe. Yet, for three days in the city of Tripoli the Italians have been systematically slaughtering Arabs, men, women and children, in a war for territorial conquest. There does not seem here to be much change from the methods employed by the Arabs of over a thousand years ago, when the Romans fell into their hands in Southern Palestine. When war or revolution removes the restraining hand of humane law, we seem to revert to once to the original type. And it's not a very pretty one.

No; human nature is not as volatile as the fashion in morals or government; as changeable as the taste in dress or amusement or polite manners. As soon as the worst elements are allowed to come to the surface in any people at any stage of their development, a little blood-letting seems to sweep away all effort at restraint or self-control; and, at once, the primal cave-man steps out of the handsome veneer with which civilization has carefully covered him and starts to use his spiked club with savage relish on the nearest and most convenient head.

No natural resource is too trifling to be turned to account by the teeming population of China. The sea is raked and strained for edible plunder. Seaweed and kelp have a place in the larder. Great quantities of shellfish, no bigger than one's fingernail, are opened and made to yield a food that finds its way far inland. The fungus that springs up in the grass after a rain is eaten. Fried sweet potato vines furnish the poor man's table. The roadside ditches are bailed out for the sake of fishes no longer than one's finger.

#### THE NEW REVOLUTION.

By Alma Whitaker.

The backbone of every country is the plain law-abiding citizen. This is the class from which all the great merchants and professional men, soldiers, engineers, and in many cases, statesmen, are culled, and it is the class that makes a country's reputation and character.

And it is also the class whose power is unlimited if only it would realize its strength. But the plain, law-abiding citizen is a conservative soul and until his own particular life is rumpled and put out of gear he cannot realize that anything is wrong and that there is any necessity for the exertion of his strength.

But this stage has now arrived—if not quite in this country, at least in all the European countries—and China. And the world is about to witness a wonderful revolt of the plain citizen against the professional agitator, the professional trouble-brewer, the professional politician—the anarchy breeder.

#### Wanton Strikes.

The recent railway strike in England, by which the horrors of war were experienced; the wanton, childish strike in Ireland (imagine over 100,000 men striking and disorganizing a whole country's business, because two railway porters declined to handle the goods of a private firm who was having a dispute with its employees!) the diabolical and wicked agitation in France by the Labor Confederation, who turned the high prices of food, brought about by a long drought, into a bitter war against capital; in Portugal, where any and every incident is seized upon to foment disorder and disorganization of government; in Austria, where the paid political agitator is a curse; in Russia, where his crass ignorance and shortsightedness nullifies every reform as fast as it is instituted; and in China, where he hurls forth half-educated opinions at the ignorant masses; in India, where he incites school boys to blow up whole trainloads of innocent people—in all of these countries the plain, law-abiding citizen is beginning to feel the effects of the nuisance, and he has begun to arouse himself to action.

#### The Great Combine.

And soon—it has begun to happen already—the plain citizen of every country will form a combine. Its object will be the suppression of sedition and anarchy in the persons of the professional agitators. There will be a big, powerful, effective, but very unostentatious revolt. It will work quickly, surely, silently. Here in the United States it will work in the same manner, but for my examples I will go farther afield.

In England, for instance, there is a gentleman named Mr. Keir Hardie. He sits in Parliament, ostensibly as a labor-union member, but actually as a preacher of sedition. His ignorance is the most substantial thing about him. He has all the audacity of such ignorance, for, after a week in India, he went to a conference, containing nearly a hundred distinct races, castes, religions and temperaments, most of whom hate each other, despise each other, and yearn to be at each other's throats with a zeal that cannot be equalled in the white race, a continent therefore that requires extraordinarily wary government, extraordinarily strong government, extraordinarily just government—after a week in this government, of which he had seen one small spot, he advises the Indians to rise up against the rule of Great Britain by fair means or foul, blow up her officials if need be, kill unoffending women and children, if need be.

He returns after a stay of six weeks, and talks the most childish rubbish about the government of India, a subject that has exercised the minds of great statesmen for half a century, men who have spent many years actually amongst the many various races, and would still hesitate to give a serious judgment upon the great complex question.

After Keir Hardie's speeches, which some Indian schoolboys devoured with relish a few more murders were committed, a few more trains blown up—and a few more schoolboys were duly punished.

When M. Stolypin was murdered in Russia, this same gentleman advocated the same treatment for the British Prime Minister, Asquith. Whenever there has been trouble of any kind in England Keir Hardie has always rushed in and added his mite of gunpowder to the flames. He has his counterparts in every country—we have many number of Keir Hardies in the United States, and France and Germany, Russia and Austria are overrun with his kind.

Very well then. The first thing the Plain Citizen Combine will accomplish is the quiet removal of these gentlemen. They won't be blown up; they will just quietly disappear from human ken. There will be a little inquiry at first, but it will die down ever so quickly, for of all people in the world the professional agitator depends entirely upon his presence and his blarney tongue to maintain any sort of interest or influence in his followers. His impassioned rhetoric is his only asset.

The idea of the Plain Citizen Combine is not being mouthed abroad and it is not seeking members or subscriptions. But it is growing rapidly nevertheless, and it is a very real and tangible thing.

With the itch removed, the great disease of unrest will soon be cured, and the world will settle down for another half a century.

#### UNCLE WALT.

The Poet Philosopher.  
 When I'm inclined to weep and wail because my luck seems kind o' stale, I always think of William Walt, who lives down by the railway tracks. He lost both legs some years ago, by being frozen in the snow, but no one ever heard his whine or curse his fortune or repine. With cheery smiles he went his way, upon his crutches, day by day. And later, when he lost both arms, his brave heart scorned all coward alarms; we bore him from the sawmill door, all stained and splattered with his gore, and still he cried: "L-t-t-a-n-g-i-n-g! I cannot dance, but I can sing!" He kept on singing in his shack, and then one day he broke his back. We put him in a plaster cast, and thought he'd surely wilt at last, but still he cried, in tones of joy: "I am your little sunshine boy!" And later on this human wreck fell from his house and broke his neck; and then a gun blew off his head, and still he wore a smile and said: "Such trifles do not worry me, and I am always full of glee!" So when grim woe may besom racks, I always think of William Walt, to whom no ill could sorrow bring, and then I dance and whoop and sing.

#### A Long List.

[Pittsburgh Gazette-Times:] Five years ago there were only half a dozen professional aviators in this country, and today there are so many one can't keep tabs on them without a card index.

#### Pen Points: By the Staff.

Wonder what it would have cost "Uncle Ike" Stephenson to be elected in Ohio?

Please add the name of the Chinese Emperor to the waiting list of the Down-and-Out Club.

Los Angeles will see Maude Adams in "Chanticleer." Ed Sothen ought to follow in Fortia or Juliet.

The crisis booked for President Taft by the insurgent enemies is like the milk-sickness—in the next county.

It looks as if the La Follette machine has been geared so high that it is likely to run away from the rest in its party.

The dissolution of the steel trust is sought in another suit just filed in the United States Court at Trenton, N. J. What, again?

The old-fashioned man who could forestall the coming of rain by the pain in his "joints" is complaining of the rheumatism.

Edison says the present day fashions hurt his eyes. The old gent should not strain them looking at the makeup of the fair sex.

Ambitious women of South Pasadena will make the race for the school board. That's right, ladies, while you are getting, get a plenty.

A Pasadena man avers that he saw a herd of sea elephants while on a recent voyage to the coast of Lower California. Wonder if they were blue?

A Federal grand jury is trying to discover if there is an undue amount of milk in Elgin butter. A butter trust might be discovered if the jury looks sharply.

"The Democrats are standing on Mount Victory overlooking the promised land," says Champ Clark. Wrong again, Champ, the Democrats never overlook anything.

Luther Burbank is now experimenting on mushrooms. He hopes to produce a variety that will bear the telephone number of the family physician—in case that it is a toad-stool.

A Chicago architect announces gravely that the Capitol at Washington will not last to exceed 500 years; and when that time arrives Bryan will still be in the hands of his friends.

The bomb throwers are at work in China and the human ghoul ought to be treated with swift and condign punishment. Bomb throwing has no place in any nation, Christian or pagan.

Down Ingleswood way the women who are engaged in the chicken business are known as breederettes. And some of them are doing so well at it that they will soon be wealthy enough to have a Cochise Chin.

Bachelorhood for both men and women is said to be on the increase. It might be in order to suggest that the California Assembly pass a law compelling folks to marry. That would be in line with "reform legislation."

No more man ever recognizes a woman by the style of her dress. How a woman dressed a man does not remember five minutes, but how she looks he does. This is view based on observation for sundry and divers moons.

The question of the constitutionality of the initiative and referendum is now fairly with the United States Supreme Court as we shall soon know what that court think of the fad. And that court is not much given to fads, either.

The wave of improvement has struck Wilmington, and that city by the sea is soon to be a municipality of brick paved streets and cement walks. It has been asleep too long already. Wave a wand of the enchanter!

San Francisco will erect a \$1,500,000 position tower piercing the heavens to a height of 550 feet. All of the money for the enterprise has been raised by public subscription. Our friends in the Bay City are certainly arranging to lay themselves out.

The prayers of many a human devil who has been snatched as a brand by the burning by the Salvation Army to ascend for the recovery of Eva Booth, commander of the organization. The good has accomplished will never be known as the sun grows cold, and the stars are the leaves of the Judgment Book are told.

The National Monetary Commission is receiving many recommendations in regard to proposed changes in our present financial system and there is some danger that in the plenitude of cooks the broth may be spoiled. The money question is ticklish at best, the number of theories as to just how it matter ought to be handled are enough to appall the commission.

#### HE SAVED THE TRAIN.

Alone in his tower Joe Omans stood As on, with lightning speed, The wild train rushed with rumbling tread On its mission of human greed. Up the track he saw, with dread and awe, With its scores of death-doomed souls The coming train of night and mail, None dreaming of their goals.

Alone in his tower Joe Omans stood, Alive to the thrilling hour, He saw their need—twas a hero's deed He welcomed death to his tower. He thought not of friend, of his own end;

The voice of Duty knew: With lightning stride, the switch turned wide— From the track the wild train flew.

The tower was shattered! With the train's fierce wreck Was scattered far and near. Not a soul was lost—Joe Omans lived, God saved the hero, dear!

By young and old be the story told Of the hero born that hour. Your medals bring, the praises sing Of JOE in his switching tower. M. H. UNDERWOOD. No. 913 West Sixth Street.

## FOR THE BLOOD

### CURES RHEUMATISM

Rheumatism is one of the oldest of human ailments, and yet the causes which produce it was a question long in doubt. It was thought at one time to be a disease of the bones, entirely; its origin was also attributed to some specific affection of the nerves, and various other theories which proved to be wrong, were put forward in an effort to find a cure for the trouble. Under these conditions the treatment of Rheumatism was very unsatisfactory and only of a temporary nature. When it was determined beyond doubt that Rheumatism is a blood disease, brought about by an excess of uric acid in the circulation, then its cure became a matter of purifying the blood and thus destroying its source. Because it is the best of all blood purifiers S. S. S. has been the most successful of all treatments for Rheumatism.

When this uric acid gets into the circulation it causes a partial fermentation of the blood, which changes it from a thick, rich stream, to a thin, acid fluid, whose nourishing properties are greatly impaired. Through the circulation the uric acid is carried to every muscle, joint and nerve of the body, and then the pains and aches of Rheumatism commence. The longer the blood is allowed to remain in this acid, weakened condition the more severe will the disease become. Gradually the muscles harden and lose their elasticity, the joints begin to stiffen, and frequently calculus deposits collect and form knots at the finger joints.

The pains of Rheumatism may often be temporarily relieved by the application of hot cloths, liniments, plasters, etc., but as such treatment does not reach the blood, no one should expect permanent benefit from it.

There is just one way to cure Rheumatism and that is to purify the blood of the uric acid. S. S. S. does this more quickly and certainly than any other medicine. S. S. S. eliminates this uric acid because it is the most penetrating of all blood remedies. It is made entirely of roots, herbs and barks compounded and scientifically blended in such manner as to make it a medicine that acts through the circulation with good effect on every portion of the system. S. S. S. cures Rheumatism permanently because it removes the cause on which the disease thrives. S. S. S. contains no harmful minerals, it is perfectly safe for every one. Write for our special book on Rheumatism and learn of the great success S. S. S. has had in curing it. Any medical advice desired will be furnished you. No charge for the book or advice. S. S. S. is sold at drug stores.

## CONLEY MAKES CONCESSIONS.

Day and Weight for Rivers Bout Changed.

Mexican Trying to Dodge Says Frankie.

Who Will Train at Doyle's Is in Dispute.

After one hour of deliberation yesterday between Managers Levy, McCarey and Gilmore, it was decided to materially change the conditions of the Rivers-Conley battle that is to be fought here this month.

In the first place, the bout was postponed from November 11 to November 18, and then they agreed to make the weight 125 instead of 124. Strange to state, there was little objection from the Conley end to any of these radical changes.

"I don't care what Rivers weighs if I can just get him into the ring," declared Conley last night. "I can train in a barn and lick Rivers and he won't be hard to hit, either. I didn't come across the country to fight either Kline or Kilbane, but Rivers, and I'll show you something when we meet. I don't think he wants any of my game and I have an idea he raised the weight to 125 to see if I would keep out of a fight with him. He's been side-tracking me for a long time."

"I'm going to make him fight this time and if he stands up he won't last long. I don't think the fight will go more than fourteen rounds and I should knock him out before then."

This is the way Conley thinks of Rivers, and if confidence helps him any, he should win a mile. He is not to allow Rivers to get away from him was not only proven by his concessions as to the weight and the postponement of the match one week, but he further showed it yesterday by practically agreeing to give up the Vernon training camp to Rivers, after Frankie had been working there several days.

This question of which pug will have the Vernon camp may be settled today, for while it is a very small matter, it shows the feeling of the two boys. Wolgast is due here next week and he is to train at Vernon. If he thinks he can get along better with Rivers than Conley, Rivers will use the camp and if not, Conley will have it. Wolgast is to leave Chicago tomorrow.

Conley continued his work yesterday, but intends to take life easily until next Monday. Rivers is doing light work and doesn't believe he will have any trouble in making 125 pounds by November 18.

Prize for Dennis. Fred Harlow, manager of Eddie Dennis, thinks he has a con in his boy and is strong in the belief that he can beat either Conley or Rivers at 124 pounds any time they want to fight.

Local fight bugs are very much interested in the outcome of a battle between Louis Hahn and Eddie Dennis and are waiting the time when these two scrappers will be seen in the ring. Hahn is reported to have said that Dennis might have championship timber in him and a number of other local sports think the same of Hahn.

ATHLETE SHEPPARD IS OUSTED FROM MILITIA.

(BY A. P. NIGHT WIRE TO THE TIMES). NEW YORK, Nov. 1.—After a series of courts-martial, Melvin W. Sheppard, the world's greatest middle distance runner, was dishonorably discharged from the Twenty-second Regiment of the New York State Militia, of which he has been a member for nearly four years. He has competed under the regiment's colors in more than a hundred military athletic meets. The cause of Sheppard's trouble was his failure to attend to his military duty, missing drills, and failure to pay fines.

In explanation of his failure to attend to his military duty Sheppard told the court-martial:

"My work in the customs service made it impossible for me to attend the drills. I often was compelled to work late at night."

Sheppard's discharge may prevent him from being selected for the next American team which will compete in the Olympic championships in Stockholm next year.

WOLGAST DESPAIRS MEETING WELLS. BY TOM JONES. Ad's Manager. (BY DIRECT WIRE TO THE TIMES). CADILLAC (Mich.) Nov. 1.—[Exclusive Dispatch.] "After much wrangling and a trip to New York, I am at last convinced that Matt S. Wells, English lightweight champion, does not want any of Wolgast's game. I conceded every point to him, weight, etc., and also accepted the terms of two clubs in New York, but they could not induce Wells to listen to any reasonable proposition, which plainly showed us he doesn't want to meet Wolgast. We will pay no more attention to Wells, but will be ready for Packy McFarland or any other pugilist that may be selected after the Welsh bout. Wolgast wants to box and will play no favorites. We leave Cadillac Friday for Los Angeles. After the bout, if we win there, we will meet all contenders."

## Entered in Colts Stakes.

Wilbur Lew,

Champion yearling trotting stallion of the world. Time, 2:19 1/4, made at Phoenix, Ariz., November 11, 1910.

Eddie Maier As Starter.

## NATIONAL BLUE BABY FOR DESERT RACE TO PHOENIX.

FOR THE first time in the history of the West a six-cylinder Mercer racer will be driven in the track events at Phoenix, following the big road race. This car was shipped from the factory at Trenton yesterday and will reach Phoenix in plenty of time for practice.

One of the big National racers, not the car that Harvey Herick drove at Santa Monica, but a stock racer, will be shipped to Phoenix for the track events there. This makes certain a hot contest.

Bert Dingley will ship the Pope-Hartford to Phoenix and will drive the speedster in the track events. With these three cars hooked up in a battle royal on that fast course, there should be something doing on Thursday and there is a chance to break not only the track record of Barney Oldfield but a world record.

Dr. H. H. Stone of Phoenix is referee of the big road race. Eddie Maier is the official starter. He will send the Maxwell away at 10:45 o'clock. This will be the first car to leave.

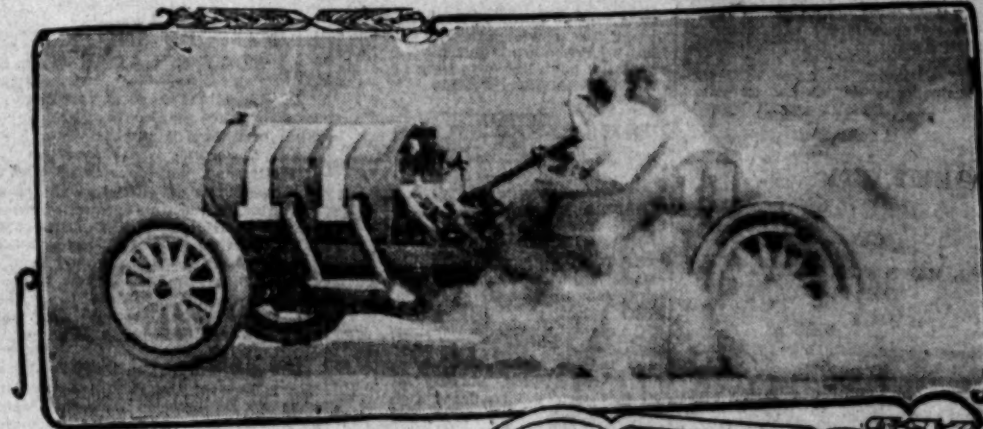

The course is 542 miles, and takes in San Diego, where \$1000 awaits the driver who makes the fastest time to that checking point, El Centro, where another \$500 can be won, and Yuma, where \$500 is offered for the car making the fastest time to the Colorado River.

An Autocar, sent by M. S. Bulkeley, will carry a stretcher, surgical instruments, bandages and medicines, as first aid to any who may be injured. Dr. L. J. Huff will accompany the truck. The Autocar will be stationed at Coyote Wells and will be ready to answer emergency calls in either direction. A corps of Red Cross trained nurses will be on the truck.

—BY BERT C. SMITH.

Harvey Herick, who won the his able guidance. He is confident, Santa Monica road race, has finished practicing for the Los Angeles-Phoenix sand battle. He won this race last year. He will drive the National

(Continued on Fourth Page.)

"Blue Baby" and says he will cut out a pace that will send him into first place again. He has a chance to win and is rapidly jumping into a favorite position.

This fast car, stripped for action, looks like a great road racing machine. It is fast and powerful. It is the same car that won at the Santa Monica race and Herick is one of the greatest drivers in the West. It is almost a cinch that before the cars start he will be one of the favorites. He is not even second choice now, but that seems to satisfy Harvey, who never boasts. Perhaps that is the reason so few of the fans choose him for first place.

Just how he will drive his race is hard to forecast. Harvey will try for the money at San Diego. He has a great chance to get this purse. He foresees he starts, however, it is easy to forecast that the record to San Diego will not be broken. The road is played up for about ten miles. This will cut the time down and make it positively dangerous to drive at speed for fear of skidding.

The trial trips with the National have satisfied the daring pilot and he is willing to wait for the starting signal. The car is to be looked over carefully and then will be turned out with a pat on the back from Earl Y. Booth, who is one of the men who is confident the car will win.

National Blue Baby Stripped for the Fierce Sand Grind To Phoenix. At the wheel is Harvey Herick with his mechanic "Swede" Swansen. Below is Herick's racing face after a fierce run over the rough and rugged course.

Turf Events.

## THANKSGIVING RACES PLANNED.

Driving Club and Breeders Join Forces.

Real Speed Burners Will Be Seen at Ascot.

Programme and Entry List Still in Embryo.

With the return of the winter season, the horsemen in this end of the State will witness a great revival in their favorite sport in the big meet to be held at the Ascot race track, when a Thanksgiving Day programme will be presented jointly by the Los Angeles Driving Club and the California Breeders' Association.

Of all the matinees in this city, the coming one promises to be the most important since Sweet Marie performed here some years ago. It will not only inaugurate harness racing in this end of the State, but it will serve to show what Southern California and the Coast can produce in the way of speed burners, for there will surely be a number flashed into the public eye.

As a matter of fact the programme for the big day has not been even arranged yet, and Secretary E. J. Delorey will not know definitely what he can present in the way of a card until November 15, as this will be the day on which starting payments are to be made for the colt stake races.

The big part of the card will be made up of the stake races, and there are three to be decided. Probably the most important is the Canfield-Clark stake of \$1000, for two-year-old trotters, mile heats, two in three. This is for foals of 1909 to race as two-year-olds this year.

There were fifty nominations from all over the Coast, but in all probability there will not be more than six starters for a number have not trained to breeding and others have dropped out for various reasons. However, the five or six that are figured are supposed to be the best on the Coast, and are expected to show it at the coming meeting.

The one that is believed to be the star is Wilbur Lew, by Kinney Lew, and owned by the Hemet Stock Farm. He holds the world's yearling stallion record of 2:19 1/4, made at Phoenix, and as he has been consistently trained this summer he is figured near that mark on Thanksgiving.

Another contest to be decided that day is the Canfield stake for three-year-old trotters, three in five heats, at a mile, and for this there were forty-eight nominations from all over the Coast, and even one from distant Texas. To provide prize money, \$400 will be added to all the entrance money, and it is expected that the stake will be at least \$1200.

The third important event is the Canfield stake for three-year-old pacers, mile heats, three in five, and the value of the purse will be about \$1200. There were about thirty nominations.

If these three races are won in straight heats, there will be eight heats for the three, but in addition to these Secretary Delorey intends to arrange a special high-class card of matinee races to fill in the afternoon.

At Conley's Camp.

ALL IS IN READINESS FOR THE J. BASH TO L.A. CONLEY WILL GIVE THE STARTING SIGNAL THIS MORNING BY TELLING HIS TRAINERS WHAT THEY'RE PAID FOR.

I TELL YOU HE CAN'T HURT YOU, WOULD YOU THINK OF IT?

SELECTING A JURY FOR THE MINOR WILL BE BACKED UP BY THE BOARD COMMANDED WITH GETTING CONLEY'S TRAINERS

CONLEY'S TRAINING CAMP WILL MAKE THE CHAMBER REVOLUTION LOOK LIKE A SPANISH TAPAL. AFTER A TWO MINUTE COMBAT WITH AN ABLE BODIED PUGILIST.

Wishes!

## CONLEY'S GOING TO CLEAN HOUSE

NO MORE "PARLOR STUFF" FOR LITTLE PUG.

Frankie Says He's Going to Pummel His Trainers to Beat the Band. So They'll Realize He's Some Champ. Will Wipe Up Ring With Them in Future.

"Me for the rough stuff hereafter, declared Frankie Conley, yesterday. This means that the little feather weight has declared war on his sparring partners and from now on any pug who takes a chance with him must be prepared to hold his own."

"I'm sick of this parlor stuff and boxing business and this light tapping don't get me anything," added Frankie. "As soon as you get to going easy with some of these guys that think you are a bum and can't hit and then a few of them try to slip something over on you and want to fight you a main event because they get the idea that you are no good."

"No more of that parlor stuff for me. In the first place you don't learn anything from it, and in the second place you don't get any exercise from it."

"Still, at that it don't make much difference to me for the very good reason that I don't care when I'm hit. About the only sensation I feel are in the first round when a fellow stings me the first time. After that, when I get warmed up, I don't care how much they hit me for I don't feel it. I don't know why this is, but it is."

"I tell some of these sparring partners of mine to sail in and slam me, but while they are doing this they may sting me a couple of times, but I'm going to hurt them if I hit them. It cannot all be on one side."

"I don't really know what it is to be hurt. Sometimes a rough boxer will butt you in the eye or make your nose bleed, but what of that. A lot of fellows have punched me pretty hard but I don't mind it after the first blow. Why, this little fellow Paty Kline was the only pug that ever knocked me down. The toughest one I ever fought was a fellow named Johnny Primrose at Elgin several years ago, and although I knocked him out in the fourth round, he was always on top of me. That's the kind I like."

"I'm going to knock all of my sparring partners around the ring after this. I've been going too easy with them and when they get in the ring with me they have got to fight. Just imagine me going up and slapping a guy on the wrist. No more. I tore into them hard yesterday and I'm going to tear into 'em again from now on. If you see some fellow flying out of the ring first that you can guess that it's either me or one of the sparring partners."

"I've had eighty-five fights and I have never been really hurt, yet I don't knock Rivers out I'll make him jump out of the ring. I don't figure that Rivers will bother me any more than my sparring partners do, and that is not much."

Mr. Wad Was Right on Deck Down at the Review of the Fleet—But He Got on the Wrong Deck!

NEW WITH VAN COURT'S COLUMN.

Did you ever hear of an in and out in the fight game? Well Bill Papke is in the fight game? Well, Bill Papke is the most inconsistent fighter before the public. He could win in a sensational fight to day and next month would lose by making a poor fight. Why has he done so?

He might have been a quitter, he might not have had enough confidence in himself and might not have been in condition.

When he fought Stanley Ketchel at Vernon the first time he surely fought like a champion. A few weeks later he went to San Francisco and was beaten and did not box up to his usual form, and lost. He then took a trip to Australia and lost and won. He lost to Johnny Thompson who had never fought in anything but the light-weight class.

I have it on good authority that when he fought Thompson he trained in the mountains, and went into the ring with the yellow jaundice and was in poor shape for anything.

Papke should have followed Tommy Ryan's way of doing things. Ryan has postponed more of his fights than any man in the game. Not through lack of confidence, but lack of condition.

I do not think that Papke can be called a quitter, although he has been accused of being one many times. We know differently.

The second time he fought Ketchel he was a sick man, and it was more of a "come back" fight than he entered into the match than his own. Papke was never a good trainer. Neither was

Billie Papke.

About the best thing the "Thunder-bolt" does is rocking the baby.

GOLF NEWS NOTES.

BY ALMA WHITAKER.

Play in the club cup contest was continued on the Beverly links yesterday. The other fellow more times than he hit you. But if you have a referee that stands for any rough work that is against the rules, the fighter that does not break them should not be blamed. Papke is a good man in his class, but unfortunate in making bad fights, when he should win. This is more owing to his lack of knowledge of training than his real ability as a fighter.

I am satisfied in my own mind that if Bill Papke were to train under the orders of a competent and able trainer that he would be the champion in his class.

FOUR IN LINE FOR THE COAST GOLF TITLE.

AFTER two days of play in the annual Pacific Coast championship golf tournament on the links of the San Francisco Golf and Country Club, four golfers remain to dispute the championship title, and there are as many more in each of the four final fights which are being contested under handicap conditions. The four candidates for championship honors are Jack Neville, Campbell D. Whyte, W. F. Garby and Vincent Whitney. These players not only figured prominently in the qualifying round Saturday, but won both of their match play rounds on Sunday. As in all other championship golf tournaments there were surprises in the event, though they were not as numerous as they have been in the past.

The Whyte-Fredericks match was easily the best of the tournament to date. Rounding the ninth hole, the players were all even and standing so until Whyte took the fourteenth, making him 1 up. He also won the fifth, and at that stage appeared to have things much his own way.

The sixteenth was halved and when Fredericks won the seventeenth he was down 1. Driving off for the eighteenth, Whyte was in the lead, and it looked as though Dr. Fredericks had a good chance of forcing the match to extra holes as he got a good drive off. Whyte recovered, however, and with Fredericks missed his putt and Whyte holed his out, giving him the match, 2 up.

Cyril Tobin came near causing an upset in his match with Vincent Whitney. The latter was looked upon as an almost sure winner, but he showed in the qualifying round, only the last green, starting for the eighteenth hole, they were all square, but of bounds, which probably cost him the match, as he was on the green with Whitney.

Play will be resumed in the tournament next Saturday, when the semifinal matches in all flights will be contested over eighteen holes. The final matches over thirty-six holes will be played next Sunday.

Following are the results of the qualifying round and the first and second rounds of the match play:

First round—Whitney, 74; Dr. D. Vincent, 74; C. D. White, 74; J. F. Garby, 74; C. L. Tobin, 74; W. F. Adamson, 81; H. B. Black, 81; R. D. Kelson, 81; Bruce Heathcote, 82; H. B. Sanderson, 82; Duval Moore, 82; A. J. Owen, 82; C. E. Mund, 82; W. Kellham, 82; C. L. Butler, 82; B. Corbett, 82; F. H. Beaver, 82; H. P. Moir, 85; A. Welsh, 85; H. V. P. Swathwaite, 85; C. H. Lawson, 86; M. E. Byre, 86; Austin White, 86; R. D. Dunham, 87; F. A. Wilkins, 87; C. T. Outherton, 87; Dr. C. M. Cooper, 87; George Thorne, 87; J. O. Tobin, 87; J. Julian Thorne, 104; Duval Moore, 104; C. B. Higgins, 104; Henry Lund, 104; M. B. Higgins, 105; George Cameron, 105; Fred Clark, 106; Dudley Valentine, 107; L. Chennery, 108; G. A. Beldin, 111; G. A. Wallace, 111; J.

Pacific Tourney.

Plover, 88; Prescott Scott, 88; D. W. McGregor, 88; H. Bentley, 88; D. C. Gray, 89; Von Schroeder, 90; W. H. Allen, 91; J. B. Tufts, 91; J. B. Lungard, 91; J. W. Hyne, 92; R. M. Looser, 92; G. M. Bowles, 92; E. K. Johnston, 92; R. P. McElush, 94; S. D. Buckbee, 94; W. E. Criss, 94; Alexander Field, 95; G. A. Innis, 95; J. J. Crooks, 94; R. L. Bentley, 93; E. T. Zook, 97; Warren Gregory, 97; C. J. Stevens, 97; M. O'Connor, 97; H. C. Jenkins, 98; Knox Maddox, 98; Worthington Ames, 98; L. I. Cowgill, 98; W. H. Stewart, 99; W. S. Berry, 100; Albert Bettens, 100; D. Duncan, 101; J. H. Beldin, 101; W. Brown, 100.

FIRST ROUND—CHAMPIONSHIPS.

First round—Adamson beat Byre, 1 up; Garby beat Sanderson, 4 up; 2 to play; Fredericks beat Heathcote, 3 up; 2 to play; Whyte beat Kales, 6 up; 4 to play; Neville beat Spens Black, 3 up; 2 to play; Vincent beat Kellham, 2 up; 2 to play; Tobin beat Owen, 7 up; 6 to play; Whitney beat Mund, 2 up; 1 to play.

Second flight—Beaver beat Wilkins, 1 up; Henshaw beat Byre, 1 up on the 19th; Lawson beat White, 3 and 2; Cooper beat Outherton, 3 and 2; Welch beat Dunham on the 19th; Moir beat Postlethwaite, 4 and 3; Burke Corbett beat Nickel, 3 and 1; Baker beat Butler, 3 and 2.

Third flight—Tufts beat Byre, 2 up; Lawrence beat Johnston, default; Looser beat Schroeder, 3 and 2; Lungard beat Scott, 3 and 1; Stephens beat Cowgill, 2 up; McElush beat Ames, 3 up; 2 to play; Meluhish beat Ames, 3 up; 2 to play; Stewart beat O'Keefe, 2 and 1; Jenkins beat Innis, 2 and 1; Buckbee beat Bentley, 2 and 1.

Fourth flight—Duncan beat Wallace, 5 and 3; Moore beat Cameron, 7 and 5; Valentine beat Higgins default; Beldin beat Lund, 3 and 1; Parsons beat Chennery, 2 up; Clark beat Bettens, default; Moss beat Berry, 5 and 4; Brown beat Hills, 2 up.

SECOND ROUND—CHAMPIONSHIPS.

Second round—Garby beat Adamson, 2 up; 1 to play; Whyte beat Fredericks, 2 up; Neville beat Vincent, 7 up; 6 to play; Whitney beat Tobin, 1 up; 2 to play; Thorne beat McGregor, 2 up; 4 to play.

Third flight—Tufts beat Byre, 2 up; Lawrence beat Johnston, default; Looser beat Schroeder, 3 and 2; Lungard beat Scott, 3 and 1; Stephens beat Cowgill, 2 up; McElush beat Ames, 3 up; 2 to play; Meluhish beat Ames, 3 up; 2 to play; Stewart beat O'Keefe, 2 and 1; Jenkins beat Innis, 2 and 1; Buckbee beat Bentley, 2 and 1.

Fourth flight—Duncan beat Wallace, 5 and 3; Moore beat Cameron, 7 and 5; Valentine beat Higgins default; Beldin beat Lund, 3 and 1; Parsons beat Chennery, 2 up; Clark beat Bettens, default; Moss beat Berry, 5 and 4; Brown beat Hills, 2 up.

CHICAGO ELEVEN HOPEFUL.

CHICAGO, Nov. 1.—Coach Stag pins his hopes for a victory over Minnesota at Minneapolis next Saturday on the speed of the University of Chicago eleven. Norman Payne at quarterback has developed into a speedy general, and although he lacks experience, Stag has decided to give him the position Saturday.

In the kicking department of the game, the complete recovery of Scruby from his injuries will, it is believed by friends of Chicago, put the balance in favor of their eleven.

GOSSIP ALONG GASOLINE ROW.

Red lights at Santa Ana to mark the way. This is an innovation. Members of the Automobile Club in that city will mark the course with red lights, and will see to it that every turn can be easily made. Go to it wide open through this city, but be careful all the time. The Santa Ana motorists are a bunch of fine fellows.

Think of it. A company of militia to guard the course at Santa Ana. This sounds right. You will drive through the streets, patrolled by soldiers, and it will be easy to see the turns. Make no mistake. The heat of Santa Ana is the place through which the cars are driven. We will tell you the exact route tomorrow.

J. S. Mitchell. Please call Main 66 at Santa Ana, and talk to the president of the Auto Club there. Tell him the route the cars will take and explain to him just where the soldier boys should stand. The man who answers the phone call will be able to tell you who to talk with. Give real orders and the men at Santa Ana will follow them. They are anxious to help the racers and make this a great event.

Do you want one of those "Howdy Hates"? Call on Leon T. Shettler today and pay him one dollar. The hats are worth the money. What is your size? Shettler has all sizes and plenty of like. Come early and avoid the rush. There are several instruments which look good—French horns for instance, the tenor, the bass, and profound brass bugles. They are all musical. That bank should be a hummer. Think of it, all of them game red hats that make A. M. Young's the bluish with shame.

W. H. Halliwell will be the official Monday an operation was performed to remove an infected blood clot from his right leg, above the ankle. With to remove an infected blood clot from this week, with the Canadian team, the visitors are having an easier time than they had at California last week. The latest reports from the Doyle, Brown and Frank out of the also be in shape for the big game.

California showed a flash of its last season's form in the game with the picked team from British Columbia Saturday. The back-field men gave a fine exhibition of team work and the forwards fought hard. However, the visitors' dribbling was much better than that of the blue and gold players, and if the Canadian back field had been stronger the scores would have been 21 to 0, and the second, 24 to 0.

Several thousand persons witnessed the plug-ugly show and rush at Stanford Saturday night. For the first time in many years none of the participants was injured.

President Jordan of Stanford, who has just returned from a trip to the Orient, says there are only 298 automobiles in Japan.

Johnny Strachan of San Francisco, sprang a big surprise Sunday when he defeated Ward Dawson, 14, of Stanford in the Bay Counties tennis final at the Home Telephone.

James Mills of Riverside has offered an annual prize of \$100 to be awarded to the winner of an intercollegiate discussion on the subject of international peace, between Stanford and California students. The first contest is to be held early in December.

Nearly 1000 rooters' tickets for the Stanford-California game were sold at Stanford Tuesday. California will have a rooting section of about 1900 students.

The Stanford soccer team was defeated by the Burns Club of San Francisco, by the score of 4 to 3, Saturday.

The senior class men at Stanford will serve luncheon the senior men of California on the day of the intercollegiate football game.

Dr. Charles F. Blaisdell, rector of Trinity Church, Redlands, was the preacher at the chapel services at Stanford Sunday morning.

The showing of the students in class-room work at Stanford this year is better than it was last year, according to the midsemester reports issued by the registrar. Ninety-three "smoke-ups" were sent to students who are behind in their work. Last year 119 warning notices were issued.

Alumni classes of California are to hold reunions in San Francisco on the night before the big football game.

HELLO TEAM BEATEN.

Last night on the Majestic alley the E. W. Reynolds took four out of five from the Home Telephone.

Medor of the Reynolds team shooting high score, and average for the evening.

The scores are as follows:

	1	2	3	4	5	TOTAL
Brown	128	122	123	124	121	618
Ackley	129	129	141	124	125	648
Medor	126	125	134	124	128	637
JAMES MILLER						547 536 504 474 518 2571
JAMES MILLER						547 536 504 474 518 2571
Mitchell	118	126	128	127	125	624
Wright	112	116	114	118	120	580
Huselman	119	122	140	120	125	626
JAMES MILLER						547 536 504 474 518 2571

James Mills of Riverside has offered an annual prize of \$100 to be awarded to the winner of an intercollegiate discussion on the subject of international peace, between Stanford and California students. The first contest is to be held early in December.

MAX, BUILDER OF GERTRUDE.

Timid Zobeide "Scaint" of Interlocutors.

One Big Man Human Wall Between Wife and World.

Their Love-Story Real and Very Practical.

BY JULIAN JOHNSON.

The large, smiling, generally amiable and diplomatic power behind a glittering feminine throne: Max Hoffmann.

Husband of Gertrude, the Great. And the first stellar husband in the world to be much more than that.

As a matter of fact, a debate as to which is mightiest would be about as pointless as an argument on which is most important—the gasoline or the motor-engine.

Max and "Gertie" are living one of the love-stories which daily refute the weary pessimism that romance is dead, and they are also continually proving that in this instance, at least, the heads are better than one.

Max Hoffmann found his wife Kitty Hayes, an unimportant factor in Matthews & Bulger's troupe in St. Paul, a number of years ago.

He threw Hayes into the discard, keeping only the H, and taking off the "Max" right after it. He wasn't ashamed of his own name, and neither was she.

He also allowed that "Kitty," while belonging appropriately to some wig-wagging small party in the pony punch, did not fit the great play-actress who he proposed to make of Mrs. H.

"Kitty" went after Hayes, back into the deck, and on the draw they kept Gertrude.

That's what it has been ever since, and probably always will be.

Gertrude Hoffmann first began to do imitations with Anna Held's show. She had a little dance, and after her title bow she ventured to give an Eddie Foy smile. The star didn't like her, and the next night she did a little more Eddie Foy. Presently some one in the audience caught on and applauded. Flo Ziegfeld, husband of Anna, was pleased at having made a discovery. He came back, hastily.

"Do you know you're doing Eddie Foy there?" he asked, excitedly.

"No, am I?" Gertrude was properly astonished and demure.

"Sure you are! Make it stronger. They like it." So, now sure that she could not be jumped by the star, Gertrude did enlarge and add, and presently Held was so pleased that she taught Hoffmann to do an imitation of herself. This, to this day, remains the best of all her imitations, because it is not only physical, but mental—a complete "showing up" of Held's little tricks of sensuous attraction.

Max Hoffmann is more than the director of the orchestra.

In the first place, he is his wife's best friend—quite an astonishing and perhaps not quite correct station for her modern-day husband—and her confidant, rather than the result of busy flannings and fortuitous family conferences.

Each has worked "single" since their marriage—once, that's all.

"We both got so lonely we vowed never to do it again," says Max.

He is the large human fence always standing between Gertrude Hoffmann's world of idealism and the don't-care, rather headless world of the actual and practical.

The truth of the matter is this, if you must know: Gertrude Hoffmann is like Peter Pan. She has absolutely refused to grow up, and she remains a lovable, genial kiddie, full of wonderful notions and dreams, while Max, on whom no one could pull any surprise, smooths the edges of the dream down and makes it fit a niche of reality.

For another thing, Gertrude Hoffmann is extremely shy and sensitive. When strangers are talking to Max in her vicinity she runs and hides.

This faculty of timidity and embarrassment is possessed by her to an extraordinary degree. She is like any school girl being confronted for the first time by the assertive new teacher.

The average "interview," which is the silliest thing on record, frightens her almost to distraction.

Rather than meet a newspaper woman, with a pencil of questions about her soul, her ideals and her yearnings, Gertrude Hoffmann vows that she would rather encounter the accelerated horned gentleman himself, on a dark road at midnight, near a cemetery.

The faculty of talking or writing is a thing apart. Why is it that some foolish persons believe that stage stars really say all the things attributed to them?

Writing is an individual form of expression—one form of expression.

Mimicry is a second, singing a third, the faculty for playing a violin a fourth. The ambitious thing inside Gertrude Hoffmann finds expression in interpretative dancing.

And the next time a persistent interviewer tries to browbeat her out of a cluster of great soul-thoughts, I hope she asks the interviewer to get up and impersonate Zobeide. It would be just as sensible. Mimetic acting, not talking, is her form of expression.

Back to Max—

The orchestra he has here is really a wonder, for an organization numbering no more men. Its instrumentation is magnificent. Have you heard the great brass soprano Hoffmann has as his first trumpet? Or the concert master, or the tympani player, or the first oboe? Soloists like these cost money, and to get the money for such an orchestra Hoffmann had to fight—that's all.

This tour will last until June. After that they will be at home, just enjoying life.

This last summer Gertrude Hoffmann built herself a house down at Coney Island.

Next summer they are going to live in it, and will quit being conductors, stage managers and naughty Arabian ladies to play a three-months engagement as human beings.

AUTO EXPERTS ON JUNKET.

NEW YORK, Nov. 1.—The names of sixty of the Society of Automobile Engineers, and most of the big automobile makers, were on the passenger list of the outgoing Cunarder Mauretania today. They are to hold a joint meeting with the Institution of Automobile Engineers in London, and to look at the motor plants of England and France.

NATIONAL BLUE BABY.

(Continued from First Page.)

watching is Johnny Jenkins on the Cole. This car has done fast time and good work in the practice stunts and this morning a new machine, fresh from the factory, will reach here ready for the great race. This may change the dope entirely. The Cole will have J. L. Fernando as mechanic.

Wagers have been made that the Cole will beat the Cadillac. This appears to be a bet that is hard to figure out. The Cadillac seems to have the best of this argument, but there are those who believe the Cole will carry off the prize. Fernando knows the road perfectly. He has been working with the government surveyors for a year on the course and is familiar with the country. He will tell Johnny just how to take the turns, and just when to take them.

The Cadillac is one of the cars on which quite a large amount of money has been placed. This thirty-horsepower racer is one of the favorites. Bill Bramlette, who will drive, is one of the best road artists in the sand battle. He is chosen to win at Phoenix by many, but is given only a slim chance for the San Diego or El Centro money.

Bramlette has practiced faithfully. He has been out almost every day and has lived on the road for about twenty-nine hours. This should mean that he can turn the race in about twenty-five hours, or fast enough to win.

Harris Hanehue, on the Mercer, looks good to Leon T. Shaffer. This car has an excellent chance. F. W. Force will go to Phoenix to watch the finish and he will not be surprised to see the car in the lead of the entire sixteen. These racers are ready for a fast run, but so is the Mercer.

Ida Barr,

English singing comedienne at the Empress Theater this week.

Hanehue is prepared for the drive of his career. He is just sore enough at losing the Santa Monica road race to make a drive that will send him into the front rank.

SOCCER GAME A TIE.

The Fourteenth-street and the Thirtieth-street intermediate juniors played a hard fought game yesterday, which resulted in a 1 to 1 score. The youngsters put up a clever exhibition in the kicking game and are taking to the sport with a vim. Grave for the Fourteenth, was the particular star, while Capt. Siemens, for the Thirtieth took the honors for his fast run, but so is the Mercer.

Ida St. Leon,

Pretty little circus rider, still playing in "Polly of the Circus," who will return in that role to the Lyceum next week.

THE Evening Herald —TODAY!

The first announcement yesterday of the publication of the Evening Herald took Los Angeles by storm. The Herald office was deluged all day yesterday with orders over the telephone and in person for the delivery of the EVENING HERALD. Even on such short notice, the advertisers responded in a most satisfactory manner and last night it was necessary to close the advertising forms and refuse the acceptance of further advertising copy for the first issue.

It Will Be Well Worth Your While

to read today's EVENING HERALD. While it will not have reached perfection, because of the enormous amount of work involved in starting an evening newspaper within twenty-four hours after the discontinuance of the morning paper—yet the EVENING HERALD today will give its thousands of readers an indication of the character of newspaper it will be within a very few days.

The Evening Herald

will be the brightest, most reliable, most readable and most dependable afternoon newspaper in Southern California. It will have facilities enjoyed by no other afternoon paper in this city or State.

The Evening Herald

will have a direct wire from Boston, New York and Chicago which will give its readers the news of the world in more complete form than enjoyed by any of its competitors.

The Evening Herald

will have the most interesting, attractive and instructive special writers. Its feature stories will appeal to every member of the family.

The Evening Herald

will be essentially the home paper of the greater Los Angeles. Telephone your order now, Main 8000, Home 10211, so that your subscription may start with the first issue TODAY.

See That You Get Today's Evening Herald

If for any reason you are disappointed in not getting a copy of the paper, telephone the Herald Office, using either of the above numbers, and a copy will be sent you by special messenger.

CAMPUS BRIEFS

The football season this year has a series of form reversals. The little fellows have come to the front and spilled the beans for the major colleges. On the Coast, Stanford ran into a terrible surprise in the game with U.S.C. and the worthy scribes of the Bay City are still trying to explain just how it all happened.

In the East, West Point smacked Yale. Brown beat Penn, and the Navy held the fighting Princeton Tigers 9 to 0. Now why is it? The little colleges are growing, and better than that is the new game of American football. In the new game brains count first and always and the days of the championship beef eaters have past.

The game gives a wide field for strategy and execution of speedy plays. The big universities therefore, are now meeting the brains of the smaller colleges and not their inferior beef, as was the case in the days of yore. As the new game is perfected the Yale, Harvard, Princeton, Penn, Michigan and other teams will find the going harder than in the days when pounds meant points. He who says brains don't count in the game of football now, is lost.

This Teschke person, who plays in the U.S.C. scrum with so much snap and dash pulled a great one, on the afternoon of the Stanford-Berkeley game. Pat Higgins had his warriors in the training quarters, giving them one of those "just before the battle" things, when somebody, probably a freshman, discovered that Teschke was missing.

The meeting was stopped on the spot and everybody went on a still hunt for the straying one. They looked in the university buildings, in the first houses, in fact, everywhere, but no Teschke. Finally Warren Bonard and Motts Blair, the hard-working managers, happened on a pile of blankets in a remote corner of the training quarters, which was rising and falling with a regular motion, looking further they discovered Teschke's head protruding from one end of the pile. The hounds were called in and the hunt stopped. There was the big fellow moaning away in his birthday suit, perfectly oblivious to his surroundings.

he can be counted against Pomona the following week.

The Stanford Rugby team has speeded up to a marked degree since their showing here with U.S.C. If the game against the British Columbia team can be taken as any criterion, they defeated the northerners by as good a score as was rolled up by the Berkeley team, and the odds for the big game are not so one sided now as a week ago.

However, the northern Cards had better show a little more class or the game with California on November 11, will be a awful land slide, and Berkeley won't be slipping.

If California should win this season it will have become a habit with them as for the past three years the Stanford teams have been biting the dust with great regularity, and unless the Cards come back this season it will be hopeless, and take it from us, they will have some hard time pulling this C.B. stunt, as the Berkeley team is composed of vets, first and last.

Pat Higgins is putting the Cards through one of the hardest weeks of practice of season at the present writing. The answer for all this pep lies in the game scheduled with the Los Angeles High School Saturday afternoon on Harvard Field. Out side of the Stanford aggregation this looks like one of the hardest games of the year, as the prep schools kids are fast and have a great scoring machine developed by Noble. On the other hand the Cards are strictly a defensive team due to the fact that this is their first year with the English game. The college men for this reason will have a hard nut to crack as it takes a little offensive work to beat a scoring team in a game of Rugby. Higgins is working with his men on the attack this week and we should see something Saturday afternoon as can be taken as any criterion.

Sid Foster, the fast Occidental half-back, is in the game again having recovered from the injury to his nose, received in the Pasadena High game. He is an exceptionally good defensive player and, while not eligible to compete in the two remaining games of the season, is a big help to the scrubs in giving the "varsity" practice.

Harry Kirkpatrick, the Tigers' fast half, is out of the game for a week or so, because of a twisted ankle, received in the Redlands game. He is hobbling around on crutches nowadays but expects to be back in the game before the clash with Whittier, one week from Saturday.

Dean Fifield, Oxy's fighting line man, will be out of the Whittier game November 11, owing to the fact that the faculty ax has descended upon his devoted dome. Dean has been tearing things up this season and was sure of a place for the Quaker game. Now he will have to sit up a few nights with his text-books and remove the obnoxious conditions before way to get an extra supply of nerve is to sleep, so I slept.

He sure got what he was looking for, as the game he played against Stanford was terrible and he was one of the eight heroes in the famous scrum.

Dean Fifield, Oxy's fighting line man, will be out of the Whittier game November 11, owing to the fact that the faculty ax has descended upon his devoted dome. Dean has been tearing things up this season and was sure of a place for the Quaker game. Now he will have to sit up a few nights with his text-books and remove the obnoxious conditions before way to get an extra supply of nerve is to sleep, so I slept.

in trouble—with headache, backache, nerves on edge, poor spirits and unreasonable fatigue—can find help for her whole system in BEECHAM'S PILLS.

the defense, while "Tubby," a brother of Ink and Drury, seems likely to hang it onto both of his older brothers, who are leaving college. At present time, besides a fine fullback and a great punter, he is the place-kicker on the squad, scoring consistently from the forty-yard line.

Coach Warner of Carleton says the football eleven of the government institution is the strongest that ever represented the Indian School. If Warner is correct in what he says, the Braves must be a formidable bunch.

The Cornell coaches are optimistic regarding the football prospects of next few years on account of the splendid material that is included in this year's freshman class. The "babies" have certainly been tearing things up this season.

Brickley, Harvard's wonderful backfield performer, is considered many experts who have seen him in action, as showing promise of developing into one of the most brilliant "arsity" players who has ever won the crimson.

## FACTS, FEATURES AND FAUCIES FOR WOMEN AND MEN BY OLIVE GRAY

**DAILY BEAUTY HINT:** Next to beauty of form and feature—and I sometimes think of more importance than either of these—is that indefinable something called style. It does not necessarily come as a result of good clothes; for many a woman has an ample wardrobe, and still lacks style. On the other hand, there are those who, with meager equipment, always have about them that something which is not to be gained. It is somewhat the result of carriage, still more the result of a certain manner of dressing the clothes. One may have this indefinable something, and the next may not—and yet you cannot say where lies the difference. I think it best defined as an "air"—for it is as intangible as air, and yet as certainly a part of some as is air a necessity of life itself. Still, I believe it possible to cultivate even that air called "style."

The other morning on a crowded street car two little girls sat in a seat beside a very pleasant looking man. When an elderly lady boarded the car, the gentleman arose and proffered his seat to her, and she, in some time admiring the little ones to move over a bit.

The lady thanked them all courteously and then by way of friendliness to the children, asked: "Was that your Papa who so kindly gave me this seat?"

A little voice, clear and sharp answered above all other sounds: "Why yes, don't you know that our Papa doesn't live with us? He lives with God."

A thrill passed over all who heard, and there was silence throughout the car.

**A Pretty.**

One of the girls has made for a friend, as a little gift, a pretty neck "fixing." It is a large velvet buckle, in black, with tiny bunches of handmade roses and buds, of ribbon and gilt film placed at intervals upon the buckle. Through this buckle is passed a string of whatever color harmonizes with the gown with which it is worn and a big bow is tied at the back of the neck. This gives an extreme chic to any frock.

**A Shoe Prediction.**

The gaiter top is an advance style in shoes which, it is predicted, will be a favorite of fashion in the future. This shoe is made with an upper of some contrasting material, made in simulation of the over gaiter. It is my idea that only those who like "loud" styles in shoes will adopt this fashion. It will not become every foot, and will be apt to make a medium-sized foot look wide and short, I think.

**For a Flower.**

The business woman who cares for flowers sometimes finds it difficult to place them in her office, so that they will not be in the way. I saw a novel flower holder, which struck me as practical. It was made from a glass test tube, such as are used for hat pin holders. In fact there were two of these. They were covered with green raffia, either netted or crocheted, and the same was used in cords by which to suspend the holders. One was placed at each side of the desk, hanging from a small nail or hook, and each contained a single flower, the stem showing through the glass and the coarse meshed raffia covering. "When I do not happen to have two roses," said the business woman, "I buy a bunch of violets and divide them, placing half in each tube."

**For Christmas.**

One of the girls has taken advantage of that sale of wooden articles and is making a gift for her mother's Christmas. She purchased for a few cents, one of those wooden balls and fork handles and instead of burning it, she has painted it in clear white enamel. When it dries thoroughly she intends to paint upon each side a Delft scene.

This will look very pretty on the kitchen dresser, with the Delft china salt container, spice jars and the blue and white platters ranged along the wall. I can think of no more practical gift than this for your mother's day and will be a constant reminder of the daughter's thoughtfulness.

**Dinner Chest.**

In the same class of articles, but more ambitious are the dinner chests of wood. A certain talented mother is finishing one of these for her daughter as a Christmas gift and something more; for it will be but the beginning of the series of gifts which will continue until the time of that daughter's marriage, whenever that happens to be.

**Extremely rich** will be the decoration of that chest; for instead of simply burning the design with a pyrography needle, it is the intention to burn it very deeply, time after time, and in also use carving tools to deepen the design, so that it will be in effect a handsomely carved chest. She will add a substantial lock and will place in the box, a first step to know exactly what, but something for the future possible household.

**The Thanksgiving Turkey.**

The Good Housekeeper has a new way of saving up the Thanksgiving turkey. Instead of threading a needle with coarse thread or twine and using it to sew the opening in the fowl, she places a line of wooden picks around the aperture and threads the twine around these. Before sending the turkey to the table, the tooth picks are removed and the thread is liberated.

**A Gift Opportunity.**

The consolidation of two of the largest jewelry establishments in the city, affords an opportunity to buy Christmas gifts at the highest class, at one-fifth less than usual prices. Everything in cut glass, in silver, in bric-a-brac, as well as in jewelry and clocks will be thus obtainable. The names of both houses are such that no further description of goods will be necessary to indicate that this is one of the opportunities of a lifetime.

**Robust Flowers.**

Have you observed the houses of restaurant, which are in some of the most exclusive establishments? They are of chiffon, over mealtime

## THE BOOTERY

WOMEN'S styles in footwear have to be different; individual; smart in the extreme without loss of dignity. Young in material, color, pattern and cut; we make a specialty of doing and having things just right. Most of you Los Angeles women know it. \$4.00 to \$7.50.

Colonial Buckles are now being displayed at this shop in endless variety \$1 the pair upwards.

Evening Slippers. Hosiery. Children's Shoes.  
C. H. WOLFELT CO. 482 Broadway  
Gaiety Shoes—the best in the world.

thing worth while. "Deliver the goods." Make your meetings entertaining, instructive and inspirational. Have them brief and bright. Don't have the programme too long and make it as entertaining as the programmes offered at women's clubs.

**She's a Suffragette.**

The story is told me of a little girl down in San Diego whose mother could not induce her to say the customary "amen" at the end of her evening petition. In vain the good mother labored with the 5-year-old, but to no purpose. Finally in desperation the little one burst out, "Mamma, I won't say 'amen,' but I will say 'a-woman' if that'll do."

**Episcopal Women Meet.**

The fall quarterly meeting of the women's auxiliary of the Episcopal diocese of Los Angeles will be held next Friday afternoon at St. John's parish house on West Adams street. Dr. John W. Wood, editor of "The Spirit of Missions," and one of the secretaries of the general board of missions of the Episcopal Church, will speak. He is just returning from a trip around the world when he visited all the missions of the church, and is fresh from the convocation of the eighth missionary district just closed in Sacramento.

**Miss Hill in Japan.**

A message has been received of the safe arrival in Yokohama of Miss Anna Hill, sent out by the Pacific congregational board to teach in Doshisha College at Kyoto. She sailed on the Minneapolis and was two days late in reaching Japan on account of a storm at sea, but reports a safe and steady passage on the big liner.

**Mrs. Gilman Agals.**

Charlotte Perkins Gilman is about to pay another visit to Los Angeles and will lecture the latter part of the month at the Bohemian and Friday Morning clubs, on the topics of "What Is Right and Why," and "The Social Conscience."

**Fine Arts League.**

The Fine Arts League of Los Angeles, of which A. F. Rosenheim is president, and Mrs. W. H. Housh is first vice-president, has just issued an artistic folder announcing the approaching completion of the league's art home in Exposition Park. It is expected that the doors of the art gallery will be thrown open to the public the first of the year. A beautiful tribute was paid to the Fine Arts League when the Board of Supervisors gave into its care for a period of fifty years, the rotunda and gallery of the museum devoted to history, science and art. Valuable works of art have been placed at the disposal of the league. Besides pictures and statuary, there are precious heirlooms and priceless possessions which will be placed under the care of experts in this fireproof building.

There is a beautiful cut in colors, reproduced from the architect's original sketch as a frontispiece in the announcement folder just issued, and a half-ton reproduction from a photograph of the exterior of the building and of a section of the rotunda with the group of statuary created by Julia Bracken Wendt in the center adorns its pages.

**Stung?**

**LOCATORS MAY MAKE TROUBLE.**

**CALIFORNIA HOMESTEADERS IN UTAH STAND TO LOSE.**

Attention of Land Office is Called to Fact That Persons Living in This Vicinity Are Being Induced to File on Public Lands on Misrepresentation.

The attention of the Registrar and Receiver of the Local Land Office has been called to the fact that professional locators are inducing persons residing in Los Angeles and vicinity to file on public lands in Utah, under the Enlarged and Homestead or Dry Farming Act. These persons are led to believe that no residence on the land is required and that claimants may live in any part of the United States, and have their claim cultivated by agents or lessees, and at the end of five years, obtain a patent. This statement is misleading and might result in the loss by the claimant of location and filing fees, the money expended in the cultivation of the claims, and the claims themselves, and also exhaust his public land rights.

Section 5 of the act relating to the public lands in Utah, says lands may be entered without the necessity of residence, provided the entryman shall in good faith cultivate not less than one-eighth of the entire area of the land during the second year, one-fourth during the third year, and one-

half during the fourth and fifth years after the date of entry; and until final proof the entryman shall reside within such distance of the land as will enable him successfully to farm the same.

As to what distance the entryman may reside from the land and still comply with the law as to cultivation, the Land Office at Washington has held that the entryman must possess the qualifications of a homesteader, notwithstanding the fact that he is excused from actually residing on land. If the entryman personally farms the land or personally supervises the cultivation and improvement of the same, the department will not inquire as to his place of residence. If he does none of these things his distance from the land will be considered for the purpose of determining whether he is unable to comply with the requirements of the department by reason of the distance of his home from the land. If he is unable to comply with the law, which requires him personally to farm the land or personally supervise such farming, it will be necessary for him either to relinquish his claim or change his place of residence.

An entryman from California might possibly hold and carry through to patent an entry in Utah under this act, provided he is so situated that he can go to the land at required intervals and personally cultivate or supervise the cultivation and improvement of his entry, but such cultivation cannot be delegated to another, while the entryman is absent from the land, nor can he rent or lease the entry for the purpose of having the required cultivation done without himself giving the work personal supervision.

**PORTERVILLE.**

PORTERVILLE, 21.—After Dr. Higgins of the Board of Health had pointed out the resultant danger to health and morals the City Council last night instructed City Attorney Murry to make the necessary steps to clear up the restricted district on Garden street. Complaints will be drawn up and warrants issued for the arrest of every resident, proprietor of a resort, owner of property, leased for immoral purposes, and also for several denizens who are charged with selling liquor illegally.

**POMELOS ORDER.**

Picking of pomeelos for the eastern trade started this morning at Worth, to fill orders for several cars. At the same time the picking of oranges started in the Santa and Blenheim districts, fruit being selected for shipment to Canada. Canadian fruit will not be sweated, but will be shipped as picked.

**This Hair Remover**  
—Works Like Magic  
(Toilet Talks)

A paste made with water and plain powdered delatone and applied to a hairy surface will remove every trace of hair or fuzz. The paste should be left on the skin two or three minutes, then removed and the surface washed. This will leave the skin hairless, firm and white. If the growth is very thick or stubborn, it may require a second application.

Druggists charge one dollar for an original one-ounce package of delatone, but to those afflicted with superfluous growths this will prove far cheaper than the electric needle, while the absence of the attending pain, and the time-consuming trips to the beauty parlor will be appreciated.

## Athena Underwear

Selling More Athena Underwear  
Alone by More Than 100% Than We  
Sold Last Year at This Time of all  
Knit Underwears in Our Department Combined

—And last year they were famous makes of women's underwear that constituted Bullock's Knit Underwear stock—

WEATHER CONDITIONS.—The high pressure area advancing southward over the United States today morning now covers all of the western half of the continent, and the weather in the Northern Plains and a general fall in temperature in the Mississippi Valley and the lake region. Zero temperatures are reported in the Dakotas and the British possessions to the north. Precipitation has occurred at scattered places in the Pacific States, Missouri and Upper Mississippi valleys and along the Atlantic seaboard from Maine to Florida. Elsewhere fair weather has prevailed. The following heavy precipitation (in inches) is reported: San Francisco, 1.1; Jacksonville, 1.3. The pressure distribution is favorable for fair weather in Los Angeles today, with a continuation of moderately low temperature night and morning.

FORECAST.—For Los Angeles and vicinity: Fair Thursday night, and Friday. For the Pacific States, including the Colorado and the British possessions to the north: Fair Thursday night, and Friday. For the Mississippi Valley and the lake region: Fair Thursday night, and Friday. For the Dakotas and the British possessions to the north: Fair Thursday night, and Friday. For the Atlantic seaboard from Maine to Florida: Fair Thursday night, and Friday.

UP MOVEMENT IN WALL STREET.

NOT A WEEK SPOT FOUND IN THE LIST. Advance Is Attributed to the Heavy Buying for the Long Account Owed to the Unexpectedly Good Quarterly Report of the United States Steel Corporation.

(BY A. P. NIGHT WIRE TO THE TIMES.) NEW YORK, Nov. 1.—It has been many weeks since Wall street has witnessed an upward movement in stocks which parallels that of today. Beginning with the stroke of the gong which signalled the opening of the market, stocks moved forward steadily to the end of the day. United States Steel rose nearly four points, to 58, passing above the figure at which it closed last Thursday, when the filing of the government suit broke the price. The United States Steel and American Smelting each gained 4 points, Canadian Pacific 3, Reading 2, and Union Pacific 1. There was not a weak spot in the list. The upward movement was ascribed generally to heavy buying, long account, owing to the unexpected good quarterly report of United States Steel, and the government's attitude toward the American Tobacco reorganization plan. The latter report of the New York Central showed a 10 per cent increase in revenue of \$1,163,000. This was unexpected, as the company had reported a 10 per cent decrease in revenue of \$1,163,000. The report of the New York Central showed a 10 per cent increase in revenue of \$1,163,000. This was unexpected, as the company had reported a 10 per cent decrease in revenue of \$1,163,000.
